SECT. 2. Said section 7 of said act is further amended by adding thereto the following paragraphs: (f) No public utility shall grant any free service nor charge or receive a greater or less or different compensation for any service rendered to any person, firm or corporation than the compensation fixed for such service by the schedules on file with the commission and in effect at the time such service is rendered. *provided, however*, that nothing in this act shall be taken to prevent any public utility from granting free or reduced rate service to its officers and employees, nor any telephone or telegraph utility from granting franks for free service to the officials of other utilities engaged in the operation of telephone or telegraph properties, nor to prevent any public utility from granting free or reduced rate service to charitable organizations or to municipalities, and *provided, further*, that statements shall be filed with the commission in such form as the commission shall require showing all service of any kind granted at less than the regular schedule rates. In any case where the commission shall investigate the rates, charges or prices of any public utility in any town or city, if it shall be of the opinion that the furnishing of free or reduced rate service under the authority of this paragraph operates unreasonably to increase the rates, charges and prices to the public, it may, to such extent as in its opinion justice may require, order a discontinuance of such free service, or an increase in the rates, charges or prices collected for such service, or any part thereof. Nothing in this act shall prevent a public utility from making a contract for service at rates other than those fixed by its schedules of general application, if special circumstances exist which render such departure from the general schedules just and consistent with the public interest, and the commission shall by order allow such contract to take effect. Such contract, however, shall be filed and shall be made public in such manner as the commission shall require, and shall constitute a part of the published schedules of the public utility making the same. The furnishing by any public utility of any product or service at the rates and upon the terms provided for in any existing contract, executed prior to the passage of this act, shall not be construed as constituting a discrimination, or undue or unreasonable preference, or advantage within the meaning specified; *provided, however*, that when any such contract or contracts are or become terminable by notice, the commission shall have power, in its discretion, to direct by order, that such contract or contracts shall be

terminated as and when directed by such order. (g) No railroad corporation or public utility shall directly or indirectly or by any special rate, rebate, drawback or other device or method, make any deviation from the rates, fares, charges or prices for any service rendered by it specified in its schedules on file and in effect at the time such service was rendered. (h) No railroad or public utility shall demand or receive from any person, firm or corporation less compensation for any service rendered or to be rendered by such railroad corporation or public utility in consideration of the furnishing by said person, firm or corporation of any part of the facilities incident thereto, *provided, however*, that nothing herein shall be construed as prohibiting any railroad corporation or public utility from renting any facilities incident to its service and paying a reasonable rental therefor, or as requiring any railroad corporation or public utility to furnish any part of such appliances which are situated in and upon the premises of any consumer, except telephone station equipment upon the premises of subscribers, and, unless otherwise ordered by the commission, meters and appliances for measurement of any service. (i) All contracts for advertising between newspaper publishers and railroad corporations and public utilities shall be made at not exceeding regular advertising rates, and such contracts shall be open to inspection by the commission at all times. (j) Every railroad corporation and public utility acting as a common carrier shall keep a correct list of all passes by it issued, except those issued to its officers and employees and their families and exchange interstate passes issued under the laws of the United States. Such list shall contain the name of each person to whom a pass is issued and a general description of said pass. A copy of such list for the preceding year, in such form as the commission may prescribe, shall be filed with the commission under such regulations as the commission may prescribe. Such list together with the books, records and papers of the carrier so far as relevant, shall be open at all times to the inspection of the commission who shall examine the same whenever they deem it necessary to the due enforcement of this act.

Repealing clause;  
act takes effect  
July 1, 1913.

SECT. 3. All acts and parts of acts inconsistent with this act are hereby repealed and this act shall take effect July 1, 1913.

SECT. 19. The trustees may receive, clothe, and discipline juvenile offenders sent to the institution by virtue of any act of the congress of the United States, for such reasonable compensation as may be agreed upon between them and the United States authorities; and the superintendent of the institution shall receive and detain such offenders as if they had been sentenced by a state court. *Provided*, that such offenders shall be received at the said school only upon condition that they have the same rights as to release, indenture and discharge hereinafter provided for children committed to the school.

Trustees may pay board of released scholar.

SECT. 22. The trustees of the school may contract to pay the board of a released child when such child, because of age or other conditions, is unable to earn his board and no proper place can be found for such child without payment of board. Payments so made shall be charged to the expenses of the school in the same manner as if they were payments for boarding, instructing and disciplining the child at the school.

Scholars bound out as apprentices.

SECT. 23. The trustees may bind out as an apprentice or servant to an inhabitant of this state any child committed to their charge. To this end they may make indentures for such binding out for any time not exceeding the minority of the child as seems to them proper. But in every such indenture the trustees shall reserve the right, by giving notice in writing to that effect, to cancel the indenture and remove the child from the master, whenever it shall appear to the trustees that the further continuance of the child with the master will be prejudicial to the best interests of the child. No indenture shall be assignable without written consent of the trustees given at the time or [of] assignment and after full investigation.

Character of custodian.

SECT. 24. In all questions of release and binding out the trustees shall have scrupulous regard to the religious and moral character of those under whose custody a released or indentured child is placed.

Release or binding out not discharge.

SECT. 25. No release or binding out of a child shall operate as a discharge of the child from the school. The trustees shall be deemed to have the care and control of children released or bound out until they attain the age of twenty-one years, and such care and control as are meanwhile conferred by the trustees upon others shall be construed to be conferred as upon agents of the trustees. The trustees shall have full power at any time to modify or cancel any arrangement for the release or binding out of a child, to return the child to the school, or to make new arrangements for the custody of the child elsewhere, such power to continue until the child attains the age of twenty-one years.

Parole officer, appointment and duties.

SECT. 26. The trustees shall annually appoint a parole officer for the school, who shall have the duty, under their direction and subject to regulations prescribed by them, of seeking out proper places for children fitted to be released or bound out and of keeping in touch with children after they are released or bound out, by visitation, obtaining reports as to their conduct, surroundings and associations, or in such other manner as the trustees may prescribe. The trustees shall fix the salary of the parole officer, and his salary and expenses shall be paid out of the current expense funds of the school.

SECT. 27. The parole officer shall report his doings to the trustees as often as required by them. Whenever he deems it best that any child released or bound out shall be placed under different conditions, he shall report the case fully to the trustees or to any committee of the trustees to which such matters may be delegated by the full board, and the trustees, or such committee, if one be authorized, shall make or cause to be made such changes in the placing of the child or the conditions of his release as they deem for the best interest of the child: or they may order the parole officer to remand the child to school for further observation and treatment, or pending the making of new arrangements for the placing out of the child. Any order in writing given to the parole officer by the trustees or by a committee of the board authorized to attend to such matters, shall confer upon the parole officer full power and authority to take the person of the child and remove him as directed.

Reports of parole officer and action thereon.

SECT. 28. The state board of charities and correction shall have the right to visit and privately interview all released and indentured children, and may at all times require of the trustees of the school, the superintendent or the parole officer full information as to the location and conditions of release or terms of indenture of any children placed out by the school.

Rights of board of charities and correction.

SECT. 29. The provisions of this act relative to placing out children shall be applicable to all children heretofore committed to the industrial school and now confined there until such time as their sentences shall expire. All children who have heretofore been released from the school without formal and final discharge and whose sentences have not yet expired shall come under the provisions of this act and so remain until the expiration of their sentences.

Parole and binding out, who affected.

SECT. 30. If any child committed to the school shall be found by the trustees to be incorrigible, and dangerous to the discipline of the school, the trustees may order such child to be transferred and committed to some other state institution for such time as they see fit, but not exceeding the time when his sentence to the industrial school expires. Or such child may be transferred and committed to any county institution upon payment thereto by the school of such sum as may be reasonable for his care and maintenance, and for such term, not exceeding his term at the school, as the trustees may determine. This disposition of the child may be at any time modified in the discretion of the trustees, as in the case of released children. A written order of the trustees shall authorize the keeper of such state or county institution to receive and keep or to discharge into the keeping of the parole officer any such child.

Incorrigibles, transfer of.

Discharge for good conduct.

SECT. 31. Any scholar distinguishing himself by obedience, diligence, and good conduct may be discharged by the trustees, whenever they shall deem such discharge for his best interest and that of the state. Every such discharge shall be in writing, and shall be a full release from all the penalties and disabilities created by the sentence, and may be in such terms of commendation as the scholar deserves.

Repealing clause.

SECT. 32. Chapter 284 of the Public Statutes, chapter 45 of the Laws of 1899, chapter 15 of the Laws of 1901, chapter 133 of the Laws of 1907, chapters 34 and 151 of the Laws of 1909, chapter 155 of the Laws of 1911, and all other acts and parts of acts inconsistent with this act are hereby repealed. ### AN ACT TO PROVIDE A METHOD FOR ADJUSTING THE MAXIMUM RATES FOR FARES AND FREIGHTS ON STEAM RAILROADS.

#### SECTION

1. Railroads filing agreement may collect existing excess rates.
2. Form of agreement.
3. Preparation of maximum schedules.
4. Substitution for existing rates.

#### SECTION

5. Form of agreement for substitution.
6. New rates to be in force until modified by legislature.
7. Application of act defined.
8. Takes effect on passage.

WHEREAS in pursuance of chapter 196 of the Laws of 1911, the public service commission has investigated fully the subject of steam railroad rates for fares and freights upon the railroads designated in said chapter 196 and has made its reports to the governor upon the general situation in respect to such rates and other related matters, together with its recommendations with reference to the subject-matter, and in particular with reference to the existing Preamble.

maximum rates for fares and freights upon those railroads leased or united under the authority of chapter 100 of the Laws of 1883, chapter 5 of the Laws of 1889, and chapter 156 of the Public Statutes; and

WHEREAS in pursuance of the reports and recommendations of said commission, it appears that the public good requires that rational, fair and scientific maximum schedules of rates be substituted for the existing legal maximum rates upon the Boston & Maine Railroad and all the lines operated by it under ownership, lease, contract, or otherwise, and likewise upon the lines operated by the Maine Central Railroad Company covering traffic between points, in New Hampshire and other points in said state and between points in New Hampshire and points on such railroads outside said state; and

WHEREAS the existing legal limitations upon railroad rates rest upon a basis of contract between the state and the railroad corporations affected, and may properly be modified by the consent of the contracting parties:

*Be it enacted by the Senate and House of Representatives in General Court convened:*

Railroads filing agreement may collect existing excess rates.

SECTION 1. Upon the filing with the public service commission by any railroad corporation doing business in this state, on or before July 1, 1913, of a stipulation and agreement duly executed by officers of such corporation duly authorized thereto, in the form set forth in section 2 of this act, such railroad corporation shall have authority until October 1, 1914, or until such earlier date as new maximum schedules for fares and freights shall become substituted for the existing legal maximum rates as provided in section 4 of this act, to demand and collect rates for fares and freights now in force in excess of the maximum prescribed by statute, upon condition that none of the rates for fares and freights now in force upon any railroad operated by such railroad corporation between points in New Hampshire and other points in said state, or between points in New Hampshire and points on such railroad outside said state, shall until said date be raised without the consent of said commission.

Form of agreement.

SECT. 2. The stipulation and agreement to be filed, as provided in the preceding section, shall be in substantially the following form: The \_\_\_\_\_ railroad (company) doing business in the state of New Hampshire and owning the following railroads, namely, \_\_\_\_\_, and operating the following railroads, namely, \_\_\_\_\_, hereby accepts the provisions of an act entitled "An Act to provide a Method for

adjusting the Maximum Rates for Fares and Freights on Steam Railroads," as passed by the general court and approved ———, 1913, and agrees that nothing in said act and nothing done in pursuance thereof shall be construed as repealing, suspending, or modifying chapter 100 of the Laws of 1883, chapter 5 of the Laws of 1889, or chapter 156 of the Public Statutes, except so far as the operation of said statutes may be affected under the authority specifically conferred by said act; and said railroad (company) further agrees that it will not until October 1, 1914, voluntarily raise, or endeavor to raise, any of its rates for fares and freights now in force between points in the state of New Hampshire and other points in said state, or between points in New Hampshire and points on said railroad outside said state, without the consent and approval of the public service commission of New Hampshire. This agreement shall not be construed as prohibiting changes in classification made by the official classification committee, subject, however, to the right of the public service commission, upon notice and hearing, as provided in chapter 164 of the Laws of 1911, to require in any case the retention of the existing classification. Said railroad (company) requests the public service commission to prepare rational, fair and scientific maximum schedules of rates for fares and freights covering traffic upon all the lines owned or operated under lease, contract, or otherwise, by said railroad (company) between all points in the state of New Hampshire and other points in said state and between points in New Hampshire and points on such railroad (company) outside said state: and in consideration of the compliance by said commission with this request, said railroad (company) hereby agrees that it will pay into the treasury of the state of New Hampshire such sum as will reimburse said state for the expense of preparing such new schedules of maximum rates, including such clerical, stenographic, expert, and legal assistance as the commission may consider proper in connection therewith, such payment to be made when new schedules shall be prepared and presented to such railroad (company) as provided in section 3 of this act. If the Boston & Maine Railroad shall file a request to have such new maximum schedules for fares and freights upon its lines prepared, it shall, at the time of filing such request pay to the state treasurer the cost to the state of the investigation authorized by chapter 196 of the Laws of 1911 as certified by the public service commission.

SECT. 3. Upon the filing by any railroad corporation of the stipulation and agreement in the form set forth in section 2 of this act, it shall be the duty of the public service commission to proceed forthwith to prepare, or cause to be prepared, and to deliver to such railroad corporation as soon as practicable, in any event prior to January 1, 1914, complete maximum schedules of rates for fares

and freights covering traffic between all points in New Hampshire upon the lines owned or operated by such railroad corporation and all other points in New Hampshire on said lines and between all points in New Hampshire on said lines and all other points on the system of such corporation outside of New Hampshire. In fixing such maximum schedules the commission shall consider all the facts and conclusions set forth in its reports to the governor dated November 30, 1912, and January 9, 1913, and such further facts and evidence as it may deem material; and it shall observe the following general principles:

(a) As to commodity rates, so called, the commission may fix new maximum schedules above or below the present legal maximum; and as to any commodity rates which it shall not fix by schedule and as to rates for switching and other special service, the commission may by general orders define a maximum standard.

(b) As to class rates, so called, the commission shall have authority to make an increase in individual rates above the existing legal maximum whenever in its judgment necessary in order to equalize rates which it may reduce below the present legal maximum; but the commission shall not fix such class rates at a point which in the aggregate shall in its judgment be a greater charge upon the traffic moving at such class rates than the class rates now in force on such railroad system as shown by the schedules now on file with the public service commission, unless the commission shall be convinced, upon consideration of all the facts before it, that the interests of the state require that such class rates be fixed above the rates now in force as aforesaid; *provided, however*, that nothing herein contained shall be construed as an expression of opinion by the legislature that the interests of the state require any such increase.

(c) As to passenger fares the commission may fix maximum schedules in any or all cases or may by general orders define the standard of maximum rates applicable thereto.

(d) As to any rates for fares and freights which shall not be fixed by new maximum schedules or by general orders, the existing legal limitations shall remain in full force and effect.

(e) All general orders made by the commission under authority of this section shall be of the same validity and effect as specific maximum schedules fixed by it, and shall be deemed to be included within the meaning of the term "maximum schedules" wherever that term is or may be used in this act or any request, stipulation or agreement filed under this act.

SECT. 4. Whenever the maximum schedules of rates for fares and freights provided for by section 3 shall be filed as provided therein, or whenever any of them shall be so filed, tariffs conforming thereto may be immediately filed and put into effect by the

railroad and continued in force until October 1, 1914. If prior to said date the railroad corporation to which maximum schedules shall have been delivered as provided in said section 3 shall file with the commission a request and agreement in the form and executed as provided in section 5 of this act, thereupon the commission shall make an order that the new maximum schedules prepared by it as aforesaid shall upon a date to be determined by it, not later than October 1, 1914, become substituted for the existing legal maximum rates for fares and freights; and said new maximum schedules of rates for fares and freights shall, from and after the date so fixed by the commission, be the legal maximum for fares and freights for such railroad corporation upon traffic and between points above defined, and the rates for fares and freights upon and over a railroad leased or united under the provisions of chapter 156 of the Public Statutes, after the date of the substitution of said new maximum schedules as above provided, or upon and over a railroad passing into the possession of a new corporation formed by a union of two or more corporations after such date, shall not be increased above the rates thus fixed as the legal maximum. If such request and agreement shall not be filed the maximum rates for fares and freights prescribed by chapter 100 of the Laws of 1883, chapter 5 of the Laws of 1889 and chapter 156 of the Public Statutes shall after said October 1, 1914, be in force and effect upon the lines of railroad affected thereby as if any departure therefrom had never been authorized. At any time before such railroad corporation shall have filed the request and agreement as provided in this section, the commission may correct or amend any of the rates fixed in such new maximum schedules and any such correction or amendment when delivered to such railroad corporation shall become a part of the new maximum schedules in all respects as if included therein before delivery.

SECT. 5. The request and agreement as provided in section 4 of this act shall be in the following form: The \_\_\_\_\_ railroad (company) doing business in the state of New Hampshire, and owning the following railroads, \_\_\_\_\_, and operating the following railroads, \_\_\_\_\_ hereby accepts the provisions of an act entitled "An Act to provide a Method of adjusting the Maximum Rates for Fares and Freights on Steam Railroads," passed by the general court of New Hampshire and approved \_\_\_\_\_, 1913, and agrees that nothing in said act shall be construed as repealing, suspending or modifying chapter 100 of the Laws of 1883, chapter 5 of the Laws of 1889, or chapter 156 of the Public Statutes, except so far as the operation thereof shall be affected by the authority specifically conferred by said act; and said railroad (company) hereby requests the public service commission to fix a date not later than October

Form of agreement for substitution.

1, 1914, upon which date the new maximum schedules for fares and freights covering traffic upon the lines of said railroad (company) between all points in New Hampshire and other points in said state and between all points in New Hampshire and other points on such railroad outside said state, shall become substituted for the existing legal maximum rates for fares and freights upon said lines between the points aforesaid; and upon the substitution of said new maximum schedules for fares and freights said railroad (company) hereby covenants and agrees with the state of New Hampshire that said new schedules of maximum rates for fares and freights shall be substituted for the rates for fares and freights existing August 1, 1883, under the operation of section 17 of chapter 100 of the Laws of 1883, the rates for fares and freights existing July 24, 1889, under the operation of the Laws of 1889, chapter 5, section 17, and under the operation of the Public Statutes, chapter 156, section 42; and hereby covenants and agrees in consideration of the substitution of said new maximum schedules for fares and freights for the rates for fares and freights existing on August 1, 1883, and on July 24, 1889, that the rates for fares and freights charged by said railroad (company) upon lines owned or operated by it under lease, contract, or otherwise, between points within the state of New Hampshire and other points within said state, or between points within said state and other points on said railroad outside of said state, shall not be increased as to any single rate beyond the maximum rate fixed therefor by such new schedules of maximum rates for fares and freights. Said agreement shall be executed by the president or other officer of such corporation who may be designated in the resolution authorizing the execution and filing of such request and agreement, and shall be authorized by vote of such corporation.

New rates in force until modified by legislature.

SECT. 6. If a railroad corporation enters into the stipulation under section 5, the new maximum schedules for fares and freights so prepared by the public service commission and substituted for the existing maximum rates for fares and freights shall be and continue in force as the maximum schedules for fares and freights until modified by authority of the legislature; and it shall be unlawful for any railroad corporation to impose or collect from any passenger or shipper any rates for fares and freights in excess of the maximum schedules so fixed. Any passenger or shipper who may be required to pay to any such railroad any rates for fares or freights in excess of the maximum fixed by said new maximum schedules, shall be entitled to recover the amount of such excess in an action of debt, brought at any time within six years after such excess rate for fares or freights shall be paid by such shipper: and the superior court is hereby authorized to restrain any such railroad corporation from collecting fares or freights in excess of such

maximum schedules, upon petition by the attorney-general or any party aggrieved.

SECT. 7. Nothing in this act shall be construed as repealing, suspending or modifying any of the provisions of chapter 100 of the Laws of 1883, of chapter 5 of the Laws of 1889, or of chapter 156 of the Public Statutes, except to the extent of authorizing, until October 1, 1914, or such earlier date as new maximum schedules shall be substituted for the existing maximum, the collection of rates for fares and freights now in force in excess of the maximum prescribed by statute, if and as requested by any railroad corporation which may comply with the provisions of section 1 and section 2 of this act, and to the extent of authorizing the substitution, if and as requested by any railroad corporation which may comply with the provisions of section 4 and section 5, of new maximum schedules for fares and freights in place of the existing legal maximum rates for fares and freights under the operation of section 17 of said chapter 100 of the Laws of 1883, section 17 of chapter 5 of the Laws of 1889, and of section 42 of chapter 156 of the Public Statutes; and nothing in this act shall affect the legal maximum rates for fares and freights upon any railroad which is now operated under lease or contract, except for such time as said lease or contract or a renewal thereof shall be in effect.

Investment of funds.

SECT. 10. (Investments.) Every society shall invest its funds only in securities permitted by the laws of this state for the investment of the assets of life insurance companies; *provided*, that any foreign society permitted or seeking to do business in this state,

which invests its funds in accordance with the laws of the state in which it is incorporated, shall be held to meet the requirements of this act for the investment of funds.

SECT. 11. (Distribution of Funds.) Every provision of the laws of the society for payment by members of such society, in whatever form made, shall distinctly state the purpose of the same and the proportion thereof which may be used for expenses, and no part of the money collected for mortuary or disability purposes or the net accretions of either or any of said funds shall be used for expenses. Distribution of funds.

SECT. 12. (Organization.) Seven or more persons, citizens of the United States, and a majority of whom are citizens of this state, who desire to form a fraternal benefit society, as defined by this act, may form a corporation under the provisions of chapter 147 of the Public Statutes. The articles of association shall state 1st: The proposed corporate name of the society, which shall not so closely resemble the name of any society or insurance company already transacting business in this state as to mislead the public or to lead to confusion; 2d. The purpose for which it is formed—which shall not include more liberal powers than are granted by this act, *provided* that any lawful social, intellectual, educational, charitable, benevolent, moral or religious advantages may be set forth among the purposes of the society—and the mode in which its corporate powers are to be exercised; 3d. The names, residences and official titles of all the officers, trustees, directors or other persons who are to have and exercise the general control and management of the affairs and funds of the society for the first year or until the ensuing election at which all such officers shall be elected by the supreme legislative or governing body, which election shall be held not later than one year from the date of the issuance of the permanent certificate. A copy of such articles of association duly certified by the secretary of state and duly certified copies of the constitution and laws, rules, and regulations, and copies of all proposed forms of benefit certificates, applications therefor and circulars to be issued by such society, and a bond in the sum of five thousand dollars, with sureties approved by the insurance commissioner conditioned upon the return of the advance payments, as provided in this section, to applicants, if the organization is not completed within one year, shall be filed with the insurance commissioner, who may require such further information as he deems necessary, and if the purposes of the society conform to the requirements of this act, and all provisions of law have been complied with, the insurance commissioner shall so certify and retain and file said articles and furnish the society a preliminary certificate authorizing said society to solicit members as hereinafter provided. Upon receipt of said certificate from the insurance commissioner said society may solicit members for the purpose of completing its Organization, requisites of.

organization and shall collect from each applicant the amount of not less than one regular monthly payment, in accordance with its table of rates as provided by its constitution and laws and shall issue to each such applicant a receipt for the amount so collected. But no such society shall incur any liability other than for such advanced payments, nor issue any benefit certificate nor pay or allow, or offer or promise to pay or allow, to any person any death or disability benefit until actual bona fide applications for death benefit certificates have been secured upon at least five hundred lives for at least one thousand dollars each, and all such applicants for death benefits shall have been regularly examined by legally qualified practicing physicians, and certificates of such examinations have been duly filed and approved by the chief medical examiner of such society; nor until there shall be established ten subordinate lodges or branches into which said five hundred applicants have been initiated; nor until there has been submitted to the insurance commissioner under oath of the president and secretary, or corresponding officers of such society, a list of such applicants, giving their names, addresses, date examined, date approved, date initiated, name and number of the subordinate branch of which each applicant is a member, amount of benefits to be granted, rate of stated periodical contributions, which shall be sufficient to provide for meeting the mortuary obligation, contracted, when valued for death benefits upon the basis of the National Fraternal Congress Table of Mortality, as adopted by the National Fraternal Congress August 23, 1899, or any higher standard at the option of the society, and for disability benefits by tables based upon reliable experience, and for combined death and permanent total disability benefits by tables based upon reliable experience, with an interest assumption not higher than four per cent. per annum; nor until it shall be shown to the insurance commissioner by the sworn statement of the treasurer, or corresponding officer of such society, that at least five hundred applicants have each paid in cash at least one regular monthly payment as herein provided per one thousand dollars of indemnity to be effected, which payments in the aggregate shall amount to at least twenty-five hundred dollars; all of which shall be credited to the mortuary or disability fund on account of such applicants, and no part of which may be used for expenses. Said advance payments shall, during the period of organization, be held in trust, and, if the organization is not completed within one year as hereinafter provided, returned to said applicants. The insurance commissioner may make such examination and require such further information as he deems advisable, and, upon presentation of satisfactory evidence that the society has complied with all the provisions of law, he shall issue to such society a certificate to that effect.

Such certificate shall be prima facie evidence of the existence of such society at the date of such certificate. The insurance commissioner shall cause a record of such certificate to be made and a certified copy of such record may be given in evidence with like effect as the original certificate. No preliminary certificate granted under the provisions of this section shall be valid after one year from its date, or after such further period, not exceeding one year, as may be authorized by the insurance commissioner, upon cause shown; unless the five hundred applicants herein required have been secured and the organization has been completed as herein provided; and the articles of incorporation and all proceedings thereunder shall become null and void in one year from the date of said preliminary certificate, or at the expiration of said extended period, unless such society shall have completed its organization and commenced business as herein provided. When any domestic society organized under this act shall have discontinued business for more than one year, or at the expiration of two years from the time this act is in effect shall have less than 400 members, the charter may be annulled on the complaint of the insurance commissioner to the attorney-general and his action thereon as provided in section 24. Every such society shall have the power to make a constitution and by-laws for the government of the society, the admission of its members, the management of its affairs and the fixing and readjusting of the rates of contribution of its members from time to time; and it shall have the power to change, alter, add to or amend such constitution and by-laws and shall have such other powers as are necessary and incidental to carrying into effect the objects and purposes of the society.

SECT. 13. (Powers Retained—Reincorporation—Amendments.) Rights of existing societies.  
 Any society now engaged in transacting business in this state may exercise, after the passage of this act, all of the rights conferred hereby, and all of the rights, powers and privileges now exercised or possessed by it under its charter or articles of incorporation not inconsistent with this act, if incorporated; or, if it be a voluntary association, it may incorporate hereunder. But no society already organized shall be required to reincorporate hereunder, and any such society may amend its articles of incorporation from time to time in the manner provided by law and all such amendments shall be filed with the insurance commissioner and shall become operative upon such filing, unless a later time be provided in such amendments.

SECT. 14. (Mergers and Transfers.) Mergers and transfers.  
 No domestic society shall merge with or accept the transfer of the membership or funds of any other society unless such merger or transfer is evidenced by a contract in writing, setting out in full the terms and conditions of

such merger or transfer, and filed with the insurance commissioner, together with a sworn statement of the financial condition of each of said societies, by its president and secretary, or corresponding officers, and a certificate of such officers, duly verified under oath of said officers of each of the contracting societies, that such merger or transfer has been approved by a vote of two thirds of the members of the supreme legislative or governing body of each of said societies. Upon the submission of said contract, financial statements and certificates, the insurance commissioner shall examine the same, and if he shall find such financial statements to be correct and the said contract to be in conformity with the provisions of this section, and that such merger or transfer is just and equitable to the members of each of said societies, he shall approve said merger or transfer, issue his certificate to that effect and thereupon the said contract of merger or transfer shall be of full force and effect and the consolidated society so created shall be admitted to do business in this state. In case such contract is not approved, the fact of its submission and its contents shall not be disclosed by the insurance commissioner.

Annual license  
and fee therefor.

SECT. 15. (Annual License.) Societies which are now authorized to transact business in this state may continue such business until the first day of April next succeeding the passage of this act, and the authority of such societies may thereafter be renewed annually, but in all cases to terminate on the first day of the succeeding April; *provided, however*, the license shall continue in full force and effect until the new license be issued or specifically refused. For each such license or renewal the society shall pay the insurance commissioner five dollars. A duly certified copy or duplicate of such license shall be prima facie evidence that the licensee is a fraternal benefit society within the meaning of this act.

Foreign society,  
how admitted.

SECT. 16. (Admission of Foreign Society.) No foreign society which is not now authorized to transact business in this state, shall transact any business herein without a license from the insurance commissioner. Any such society shall be entitled to a license to transact business within this state upon filing with the insurance commissioner a duly certified copy of its charter or articles of association; a copy of its constitution and laws, certified by its secretary or corresponding officer; a power of attorney to the insurance commissioner as hereinafter provided; a statement of its business under oath of its president and secretary, or corresponding officers, in the form required by the insurance commissioner, duly verified by an examination made by the supervising insurance official of its home state or other state satisfactory to the insurance commissioner of this state; a certificate from the proper official in its home state, province or country, that the society is legally organized;

a copy of its contracts, which must show that benefits are provided for by periodical, or other payments by persons holding similar contracts; and upon furnishing the insurance commissioner such other information as he may deem necessary to a proper exhibit of its business and plan of working, and upon showing that its assets are invested in accordance with the laws of the state, territory, district, province or country where it is organized, he shall issue a license to such society to do business in this state, until the first day of the succeeding April, and such license shall, upon compliance with the provisions of this act, be renewed annually, but in all cases to terminate on the first day of the succeeding April. Any foreign society desiring admission to this state, shall have the qualifications required of domestic societies organized under this act upon a valuation by any one of the standards authorized in section 23 and have its assets invested as required by the laws of the state, territory, district, country, or province where it is organized. For each such license or renewal the society shall pay the insurance commissioner five dollars. When the insurance commissioner refuses to license any society, or revokes its authority to do business in this state, he shall reduce his ruling, order or decision to writing and file the same in his office and shall furnish a copy thereof, together with a statement of his reasons, to the officers of the society upon request; *provided, however*, that nothing contained in this or the preceding section shall be taken or construed as preventing any such society from continuing in good faith all contracts made in this state during the time such society was legally authorized to transact business herein.

SECT. 17. (Power of Attorney and Service of Process.) Every foreign society shall appoint in writing the insurance commissioner or his successor in office to be its true and lawful attorney, upon whom all lawful process in any action or proceeding against it may be served, and in such writing shall agree that any lawful process against it which is served on said attorney shall be of the same legal force and validity as if served upon the society, and that the authority shall continue in force so long as any liability remains outstanding in this state. Copies of such certificate, certified by said insurance commissioner, shall be deemed sufficient evidence thereof, and shall be admitted in evidence with the same force and effect as the original thereof might be admitted. Service upon such attorney shall be deemed sufficient service upon such society. When legal process against any such society is served upon said insurance commissioner, he shall immediately notify the society of such service by letter, prepaid and directed to its secretary or corresponding officer, and shall within two days after such service forward in the same manner a copy of the process served on him to such officer.

The plaintiff in such process so served shall pay to the insurance commissioner at the time of such service a fee of three dollars, which shall be recovered by him as part of the taxable costs if he prevails in the suit. The insurance commissioner shall keep a record of all processes served upon him, which record shall show the day and hour when such service was made. Legal process shall not be served upon any such society except in the manner and upon the attorney provided for herein.

Governing body, where to meet; office to be in this state.

SECT. 18. (Place of Meeting—Location of Office.) Any domestic society may provide that the meetings of its legislative or governing body may be held in any state, district, province or territory wherein such society has subordinate branches, and all business transacted at such meetings shall be as valid in all respects as if such meetings were held in this state; but its principal office shall be located in this state.

Officers and members not personally liable.

SECT. 19. (No Personal Liability.) Officers and members of the supreme, grand or any subordinate body of any such incorporated society shall not be individually liable for the payment of any disability or death benefit provided for in the laws and agreements of such society; but the same shall be payable only out of the funds of such society and in the manner provided by its laws.

Waiver of society's laws.

SECT. 20. (Waiver of the Provisions of the Laws.) The constitution and laws of the society may provide that no subordinate body, nor any of its subordinate officers or members shall have the power or authority to waive any of the provisions of the laws and constitution of the society, and the same shall be binding on the society and each and every member thereof and on all beneficiaries of members.

Benefits not subject to attachment.

SECT. 21. (Benefits not Attachable.) No money or other benefit, charity or relief or aid to be paid, provided or rendered by any such society shall be liable to attachment, trustee or other process, or be seized, taken, appropriated or applied by any legal or equitable process or operation of law to pay any debt or liability of a member or beneficiary, or of any other person who may have a right thereunder, either before or after payment.

Amendments of laws, etc., to insurance commissioner.

SECT. 22. (Constitution and Laws—Amendment.) Every society transacting business under this act shall file with the insurance commissioner a duly certified copy of all amendments of or additions to its constitution and laws within ninety days after the enactment of the same. Printed copies of the constitution and laws as amended, changed or added to, certified by the secretary or corresponding officer of the society, shall be *prima facie* evidence of the legal adoption thereof.

Statements of condition, what to contain.

SECT. 23. (Annual Reports.) Every society transacting business in this state shall annually, on or before the first day of March,

file with the insurance commissioner, in such form as he may require, a statement under oath of its president and secretary or corresponding officers, of its condition and standing on the thirty-first day of December next preceding, and of its transactions for the year ending on that date, and also shall furnish such other information as the insurance commissioner may deem necessary to a proper exhibit of its business and plan of working. The insurance commissioner may at other times require any further statement he may deem necessary to be made relating to such society. In addition to the annual report herein required, each society on the lodge system and authorized to pay benefits in this state upon the death of its members, except those societies which do not pay benefits for death from natural causes, shall annually report to the insurance commissioner a valuation of its certificates in force on December 31st, last preceding; excluding those issued within the year for which the report is filed, in cases where the contributions for the first year in whole or in part are used for current mortality and expenses; *provided*, the first report of valuation shall be made as of December 31st, 1913. Such report of valuation shall show, as contingent liabilities, the present mid-year value of the promised benefits provided in the constitution and laws of such society under certificates then subject to valuation; and, as contingent assets, the present midyear value of the future net contributions provided in the constitution and laws as the same are in practice actually collected. At the option of any society, in lieu of the above, the valuation may show the net value of the certificates subject to valuation hereinbefore provided, and said net value, when computed in case of monthly contributions, may be the mean of the terminal values for the end of the preceding and of the current insurance years. Such valuation shall be certified by a competent accountant or actuary, or, at the request and expense of the society, verified by the actuary of the department of insurance of the home state of the society, and shall be filed with the insurance commissioner within ninety days after the submission of the last preceding annual report. The legal minimum standard of valuation for all certificates, except for disability benefits, shall be the National Fraternal Congress Table of Mortality as adopted by the National Fraternal Congress August 23, 1899, or, at the option of the society, any higher table; or, at its option, it may use a table based upon the society's own experience of at least twenty years and covering not less than one hundred thousand lives with interest assumption not more than four per centum per annum. Each such valuation report shall set forth clearly and fully the mortality and interest basis and the method of valuation. Any society providing for disability benefits shall keep the net contributions for such benefits in a fund separate

and apart from all other benefit and expense funds and the valuation of all other business of the society; *provided*, that where a combined contribution table is used by a society for both death and permanent total disability benefits, the valuation shall be according to tables of reliable experience and in such case a separation of the funds shall not be required. The valuation herein provided for shall not be considered or regarded as a test of the financial solvency of the society, but each society shall be held to be legally solvent so long as the funds in its possession are equal to or in excess of its matured liabilities. Beginning with the year 1914 a report of such valuation and an explanation of the facts concerning the condition of the society thereby disclosed shall be printed and mailed to each beneficiary member of the society not later than June 1st of each year; or, in lieu thereof, such report of valuation and showing of the society's condition as thereby disclosed may be published in the society's official paper and the issue containing the same mailed to each beneficiary member of the society. The laws of such society shall provide that if the stated periodical contributions of the members are insufficient to pay all matured death and disability claims in full, and to provide for the creation and maintenance of the funds required by its laws, additional, increased or extra rates of contribution shall be collected from the members to meet such deficiency; and such laws may provide that, upon the written application or consent of the member, his certificate may be charged with its proportion of any deficiency disclosed by valuation, with interest not exceeding five per centum per annum.

Provisions to insure future security.

SECT. 23. a. (Provisions to Insure Future Security.) If the valuation of the certificates, as hereinbefore provided, on December 31, 1917, shall show that the present value of future net contributions, together with the admitted assets, is less than the present value of the promised benefits and accrued liabilities, such society shall thereafter maintain said financial condition at each succeeding triennial valuation in respect of the degree of deficiency as shown in the valuation as of December 31, 1917. If at any succeeding triennial valuation such society does not show at least the same condition, the insurance commissioner shall direct that it thereafter comply with the requirements herein specified. If the next succeeding triennial valuation after the receipt of such notice shall show that the society has failed to maintain the condition required herein, the insurance commissioner may, in the absence of good cause shown for such failure, institute proceedings for the dissolution of such society, in accordance with the provision of section 24 of this act, or in the case of a foreign society, its license may be cancelled in the manner provided in this act. Any such society, shown by any triennial valuation, subsequent to December 31, 1917,

not to have maintained the condition herein required, shall, within two years thereafter, make such improvement as to show a percentage of deficiency not greater than as of December 31, 1917, or thereafter, as to all new members admitted, be subject, so far as stated rates of contributions are concerned, to the provisions of section 12 of this act, applicable in the organization of new societies; *provided* that the net mortuary or beneficiary contributions and funds of such new members shall be kept separate and apart from the other funds of the society. If such required improvement is not shown by the succeeding triennial valuation, then the said new members may be placed in a separate class and their certificates valued as an independent society in respect of contributions and funds.

SECT. 23. b. In lieu of the requirements of section 23 and 23 a, any society accepting in its laws the provision of this section may value its certificates on a basis, herein designated "accumulation basis," by crediting each member with the net amount contributed for each year and with interest at approximately the net rate earned and by charging him with his share of the losses for each year, herein designated "cost of insurance" and carrying the balance, if any, to his credit. The charge for the cost of insurance may be according to the actual experience of the society applied to a table of mortality recognized by the law of this state, and shall take into consideration the amount at risk during each year, which shall be the amount payable at death less the credit to the member. Except as specifically provided in its articles or laws or contracts no charge shall be carried forward from the first valuation hereunder against any member for any past share of losses exceeding the contributions and credit. If, after the first valuation, any member's share of losses for any year exceeds his credit including the contribution for the year, the contribution shall be increased to cover his share of the losses. Any such excess share of losses chargeable to any member may be paid out of a fund or contributions especially created or required for such purpose. Any member may transfer to any plan adopted by the society with net rates on which tabular reserves are maintained and on such transfer shall be entitled to make such application of his credit as provided in the laws of the society. Certificates issued, rerated or readjusted on a basis providing for adequate rates with adequate reserves to mature such certificates upon assumptions for mortality and interest recognized by the law of this state shall be valued on such basis, herein designated the "tabular basis"; *provided* that if on the first valuation under this section a deficiency in reserve shall be shown for any such certificate, the same shall be valued on the accumulation basis. Whenever in any society having members upon the tabular basis and upon the accumulation basis, the total of all costs of insurance pro-

Valuation of certificates on accumulation basis, etc.

vided for any year shall be insufficient to meet the actual death and disability losses for the year, the deficiency shall be met for the year from the available funds after setting aside all credits in the reserve; or from increased contributions or by an increase in the number of assessments applied to the society as a whole or to classes of members as may be specified in its laws. Savings from a lower amount of death losses may be returned in like manner as may be specified in its laws. If the laws of the society so provide, the assets representing the reserves of any separate class of members may be carried separately for such class as if in an independent society, and the required reserve accumulation of such class so set apart shall not thereafter be mingled with the assets of other classes of the society. A table showing the credits to individual members for each age and year of entry and showing opposite each credit the tabular reserve required on the whole life or other plan of insurance specified in the contract, according to assumptions for mortality and interest recognized by the law of this state and adopted by the society, shall be filed by the society with each annual report and also be furnished to each member before July 1st of each year. In lieu of the aforesaid statement there may be furnished to each member within the same time a statement giving the credit for such member and giving the tabular reserve and level rate required for a transfer carrying out the plan of insurance specified in the contract. No table or statement need be made or furnished where the reserves are maintained on the tabular basis. For this purpose, individual book-keeping accounts for each member shall not be required and all calculations may be made by actuarial methods. Nothing herein contained shall prevent the maintenance of such surplus over and above the credits on the accumulation basis and the reserves on the tabular basis as any society may provide by or pursuant to its laws; nor be construed as giving to the individual member any right or claim to any such reserve or credit other than in manner as expressed in the contract and its laws; nor as making any such reserve or credits a liability in determining the legal solvency of the society.

Examination of  
domestic societies;  
proceedings for  
dissolution.

SECT. 24. (Examination of Domestic Societies.) The insurance commissioner, or any person he may appoint, shall have the power of visitation and examination into the affairs of any domestic society. He may employ assistants for the purpose of such examination, and he, or any person he may appoint, shall have free access to all the books, papers and documents that relate to the business of the society and may summon and qualify as witness under oath and examine its officers, agents and employees or other persons in relation to the affairs, transactions and condition of the society. The expense of such examination shall be paid by the society examined, upon statement furnished by the insurance commissioner, and the

examination shall be made at least once in three years. Whenever after examination the insurance commissioner is satisfied that any domestic society has failed to comply with any provisions of this act, or is exceeding its powers, or is not carrying out its contracts in good faith, or is transacting business fraudulently; or whenever any domestic society, after the existence of two years or more from the time this act shall be in force, shall have a membership of less than 400 (or shall determine to discontinue business), the insurance commissioner may present the facts relating thereto to the attorney-general, who shall, if he deem the circumstances warrant, commence an action *in quo warranto* in a court of competent jurisdiction, and such court shall thereupon notify the officers of such society of a hearing, and if it shall then appear that such society should be closed, said society shall be enjoined from carrying on any further business and some person shall be appointed receiver of such society, and shall proceed at once to take possession of the books, papers, moneys and other assets of the society and shall forthwith, under the direction of the court, proceed to close the affairs of the society and to distribute its funds to those entitled thereto. No such proceedings shall be commenced by the attorney-general against any such society until after notice has been duly served on the chief executive officers of the society and a reasonable opportunity given to it, on a date to be named in said notice, to show cause why such proceedings should not be commenced.

SECT. 25. (Application for Receiver, etc.) No application for injunction against or proceedings for the dissolution of or the appointment of a receiver for any such domestic society or branch thereof shall be entertained by any court in this state unless the same is made by the attorney-general.

Application for receiver, etc., how made.

SECT. 26. (Examination of Foreign Societies.) The insurance commissioner, or any person whom he may appoint, may examine any foreign society transacting or applying for admission to transact business in this state. He may employ assistants and he, or any person he may appoint shall have free access to all the books, papers and documents that relate to the business of the society, and may summon and qualify as witness under oath and examine its officers, agents and employees and other persons in relation to the affairs, transactions and conditions of the society. He may, in his discretion, accept in lieu of such examination the examination of the insurance department of the state, territory, district, province or country where such society is organized. The actual expenses of examiners making any such examination shall be paid by the society upon the statement furnished by the insurance commissioner. If any such society or its officers refuse to submit to such examination or to comply with the provisions of the section relative thereto, the

Examination of foreign societies.

authority of such society to write new business in this state shall be suspended or license refused until satisfactory evidence is furnished the insurance commissioner relating to the condition and affairs of the society, and during such suspension the society shall not write new business in this state.

Publication of adverse reports, etc.

SECT. 27. (No Adverse Publications.) Pending, during or after an examination or investigation of any such society, either domestic or foreign, the insurance commissioner shall make public no financial statement, report or finding, nor shall he permit to become public any financial statement, report or finding affecting the status, standing or rights of any such society, until a copy thereof shall have been served upon such society, at its home office, nor until such society shall have been afforded a reasonable opportunity to answer any such financial statement, report or finding, and to make such showing in connection therewith as it may desire.

Revocation of license.

SECT. 28. (Revocation of License.) When the insurance commissioner on investigation is satisfied that any foreign society transacting business under this act has exceeded its powers, or has failed to comply with any provisions of this act, or is conducting business fraudulently, or is not carrying out its contracts in good faith, he shall notify the society of his findings, and state in writing the grounds of his dissatisfaction, and after reasonable notice require said society, on a date named, to show cause why its license should not be revoked. If on the date named in said notice such objections have not been removed to the satisfaction of the said insurance commissioner, or the society does not present good and sufficient reasons why its authority to transact business in this state should not at that time be revoked, he may revoke the authority of the society to continue business in this state.

Sundry provisions as to government and conduct of business.

SECT. 29. Domestic corporations as described in section one of this act, governed by direct vote of their members, now doing business may continue to transact business in this state. Such corporations and like societies incorporated under the provisions of this act shall be governed by sections four, six, eleven, twelve so far as the same are applicable, thirteen, nineteen and twenty-one, twenty-three, twenty-four, twenty-five, twenty-seven, thirty, thirty-one and thirty-two, of this act, and in addition by the following provisions: The officers of such corporations shall be elected by ballot by the members as often as once in two years. Proxies shall not be used in voting. No person under sixteen years of age shall be admitted to membership. The recording officer of such a corporation shall file with the insurance commissioner amendments to its by-laws within thirty days after their adoption. Such equitable assessments, either periodical or otherwise, shall be made upon the members as shall be necessary to carry out the purposes of the or-

ganization. Paid agents shall not be employed in soliciting or procuring members, except in the organizing or building up the organization or granting members inducements to procure new members; but any such corporation hereafter formed, unless it confines its membership to that of a particular fraternity in any one county or to a lodge of some fraternity, shall not contract to pay benefits to its members until it shall satisfy the insurance commissioner that it has received at least five hundred bona fide applications for membership. With the approval of the insurance commissioner in writing, and the consent of each corporation expressed by vote at a duly called meeting, any such corporation may transfer its membership and funds to any authorized similar corporation. Nothing contained in this act shall be construed to affect or apply to secret orders or fraternities operating on the lodge system with a representative form of government and granting insurance benefits as incidental only to the work of the order or fraternity, or societies which limit their membership to any one hazardous occupation, nor to similar societies which do not issue insurance certificates, nor to an association of local lodges of a society now doing business in this state which provides death benefits not exceeding five hundred dollars to any one person, or disability benefits not exceeding three hundred dollars in any one year to any one person, or both, nor to any contracts of reinsurance business on such plan in this state, nor to domestic societies which limit their membership to the employees of a particular city or town, designated firm, business house or corporation, nor to domestic lodges, orders or associations which do not provide for a death benefit of more than one hundred dollars, or for disability benefits of more than one hundred and fifty dollars to any one person in any one year. The insurance commissioner may require from any society such information as will enable him to determine whether such society is exempt from the provisions of this act. Any fraternal benefit society, heretofore organized, and incorporated and operating within the definition set forth in sections 1, 2 and 3 of this act, providing for benefits in case of death or disability resulting solely from accidents, but which does not obligate itself to pay death or sick benefits, may be licensed under the provisions of this act, and shall have all the privileges and shall be subject to all the provisions and regulations of this act, except that the provisions of this act requiring medical examinations, valuations of benefit certificates, and that the certificate shall specify the amount of benefits, shall not apply to such society.

SECT. 30. (Taxation.) Every fraternal benefit society organized or licensed under this act is hereby declared to be a charitable and benevolent institution, and all of its funds shall be exempt from all and every state, county, district, municipal and school tax, other than taxes on real estate and office equipment. Exemption from taxation.

Penalties.

SECT. 31. (Penalties.) Any person, officer, member or examining physician of any society authorized to do business under this act who shall knowingly or wilfully make any false or fraudulent statement or representation in or with reference to any application for membership, or for the purpose of obtaining money from or benefit in any society transacting business under this act, shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than one hundred dollars nor more than five hundred dollars, or imprisonment in the county jail for not more than one year, or both, in the discretion of the court; and any person who shall wilfully make a false statement of any material fact or thing in a sworn statement as to the death or disability of a certificate holder in any such society for the purpose of procuring payment of a benefit named in the certificate of such holder, and any person who shall wilfully make any false statement in any verified report or declaration under oath required or authorized by this act, shall be guilty of perjury, and shall be proceeded against and punished as provided by the statutes of this state in relation to the crime of perjury. Any person who shall solicit membership for, or in any manner assist in procuring membership in any fraternal benefit society not licensed to do business in this state, or who shall solicit membership for, or in any manner assist in procuring membership in any such society not authorized as herein provided, to do business as herein defined in this state, shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than fifty nor more than two hundred dollars. Any society, or any officer, agent or employee thereof neglecting or refusing to comply with or violating any of the provisions of this act, the penalty for which neglect, refusal or violation is not specified in this section, shall be fined not exceeding two hundred dollars upon conviction thereof.

Repealing clause;  
act takes effect  
January 1, 1914.

SECT. 6. Any person licensed to practice dentistry in this state by the New Hampshire State Dental Board as hereinbefore provided shall within ninety days from the date of issue cause such license to be registered with the secretary of state, who shall receive for registering such license a fee of twenty-five cents for each registration, to be paid by the licensee. And it is hereby provided further that every person, unless legally engaged in the practice of dentistry in this state at the time when this act shall take effect, or holding a certificate as provided by section 3, who engages in the practice of dentistry in this state shall cause his or her license to be registered with the secretary of state before beginning the practice of dentistry in this state, and to be at all times displayed in a conspicuous place in the office wherein he or she shall practice such profession, and shall further, whenever requested, exhibit such license to any of the members of said board or its authorized agent.

The board, when written charges against any person have been filed with its secretary-treasurer, and seem substantiated by affidavit, shall fix a time and place for the hearing of such charges, and shall give written notice to the said person against whom charges shall be made of the time and place for said hearing, and furnish him with a copy of the charges at least twenty days prior to the date fixed for the hearing. At such hearing said board shall have the power to compel the attendance of and swear witnesses. Such revocation shall take from

Any person failing to pass a satisfactory examination at the first trial shall be entitled to be once re-examined at a future meeting of the board without additional payment. The board shall make an annual report of its proceedings to the governor by the 31st day of December in each year, and all fees and fines received by the board shall be paid monthly by the secretary-treasurer into the treasury of the state. The compensation and all necessary expenses of the board shall be paid from the treasury of the state, and shall be approved by the board and sent to the state auditor, who shall certify to the governor and council the amounts due and the same shall be paid upon the warrant of the governor with the advice and consent of the council, and so much of said receipts as may be necessary is hereby appropriated for the compensation and expenses aforesaid. The members of the board shall each receive as compensation the sum of five dollars (\$5) for each day actually engaged in the duties of the office, and all legitimate and necessary expenses incurred in attending the meetings of said board; *provided* that the secretary-treasurer of the board may receive a salary

to be fixed by the board instead of the per diem of five dollars. Said board shall receive compensation only as the fees received shall allow, and shall be of no expense to the state beyond the amount of such fees.

Use of forged diploma, etc., penalty.

SECT. 10. Any person filing or attempting to file as his own the diploma or license of another, or a forged affidavit of identification or qualification, shall be deemed guilty of forgery, and upon conviction thereof shall be subject to such fine and imprisonment as is made and provided by the statutes of this state for the crime of forgery.

Dentists from other states, how licensed.

SECT. 11. The dental board may, in its discretion, issue a license to practice dentistry without examination to a legal practitioner of dentistry who removes to New Hampshire from another state or territory of the United States, or from a foreign country, in which he or she conducted a legal practice of dentistry for at least five years immediately preceding his or her removal: *Provided* such applicant present a certificate from the dental board, or a like board, of the state, territory, or country from which he or she removes, certifying that he or she is a legal, reputable and competent dentist and of good moral character, and *provided, further*, that such certificate is presented to the New Hampshire State Dental Board within six months from the date of its issue, and that the board of such other state, territory or country shall in like manner recognize licenses issued by the dental board of the state of New Hampshire presented to such other board by legal practitioners of dentistry from this state, who may wish to remove to or practice in such other state, territory or country.

Fees in certain cases.

SECT. 13. The fee for issuing a license to a legal practitioner from another state, territory or foreign country to practice dentistry in this state under section 11 of this act shall be twenty-five dollars (\$25), and the fee for issuing a certificate to a legal practitioner of this state under section 12 of this act shall be five dollars (\$5), and in each case the fee shall be paid in cash before the license or certificate respectively shall be issued.

for that purpose, or violates any of the provisions of this act, shall be subject to prosecution before any court of competent jurisdiction upon complaint, information or indictment, and shall upon conviction be fined for each offense in any sum not less than fifty dollars (\$50) or more than two hundred dollars (\$200), or by imprisonment for not more than sixty days, or by both such fine and imprisonment. All fines imposed and collected under this act shall be paid by the clerk of the superior court to the secretary-treasurer of the New Hampshire State Dental Board. All complaints of criminal violations of this act received by the board shall be by it referred to the county solicitor of the county in which the accused person may reside, and it shall be the duty of the county solicitor to prosecute the same.

SECT. 15. All licenses issued by the said board shall be signed by all of the members thereof and attested by its president and secretary-treasurer.

Licenses, how signed.

SECT. 16. Any association or company of persons, whether incorporated or not, who shall engage in the practice of dentistry under the name of company, association or any other title, shall cause to be displayed and kept in a conspicuous place at the entrance of its place of business, the name of each and every person employed in said company or association in the practice of dentistry at such place of business, and any one so employed by said company or association whose name shall not be so displayed as above provided, and the said association or company, if incorporated, or the persons comprising the same if not incorporated, shall, for the failure to display the aforesaid names, be deemed guilty of a misdemeanor, and upon conviction thereof, each shall be punished as for a violation of the provisions of this act, as provided in section 14. Meaning of  
terms used.

SECTION 1. Section 1 of chapter 164 of the Laws of 1911 entitled, "An Act to Establish a Public Service Commission," is amended to read as follows:

SECTION 1. (a) The term "commission" as used in this act, shall mean the public service commission hereby created.

(b) The term "railroad corporation" shall include every corporation, company, association, joint stock association, partnership

and person, their lessees, trustees or receivers, appointed by any court whatsoever, owning, operating or managing any railroad or street railway or any cars or equipment used thereon or in connection therewith, or engaged in carrying on a public express business over the line of any railroad.

(c) The term "public utility" shall include every corporation and every company, association, joint stock association, partnership and person, their lessees, trustees or receivers appointed by any court whatsoever, except municipal corporations, owning, operating or managing any plant or equipment or any part of the same for the conveyance of telephone or telegraph messages or for the manufacture or furnishing of light, heat, power or water for the public, or in the generation, transmission or sale of electricity ultimately sold to the public, or owning or operating any ferry or toll bridge, or owning or operating any steam or other power boat engaged in the common carriage of passengers or freight, *provided, however,* that no such corporation, company, association, joint stock association, partnership or person shall be deemed to be a public utility by reason of the ownership or operation of any water system or part thereof, if the whole of such water system shall supply a less number of consumers than ten, each family, tenement, store or other establishment being considered a single consumer; nor shall any corporation, company, association, joint stock association, partnership or person engaged in manufacturing and carrying on in this state a manufacturing establishment, the product of which is something besides power, and producing electricity primarily for the operation of such establishment, be deemed a public utility by reason of the sale of electricity to a public utility at times when there may be a surplus of electricity beyond the needs of such manufacturing establishment, or when such manufacturing establishment may not be in operation.

(d) The term "railroad" shall include every railroad and street railway by whatever power operated which is open to public use in the conveyance of persons or property, for a compensation, also all bridges, grade crossings, under passes, switches, spurs, tracks, equipment, stations and terminals and other facilities and property of every kind whatever, used, operated or owned by or in connection with any such railroad or railway.

(e) The term "service" shall be taken in its broadest and most inclusive sense.

SECT. 2. Paragraph (e) section 2 of said act is amended to read Salaries increased. as follows:

(e) The chairman of said commission shall receive a salary of thirty-seven hundred dollars, and each of the other members shall receive thirty-five hundred dollars, per year, to be paid quarterly

from the state treasury, and his reasonable expenses, including transportation, subject to the approval of the governor and council.

Expenditure of money.

SECT. 3. Paragraph (f) of said section 2 of said act is amended to read as follows:

(f) In the exercise of the authority and the performance of the duties prescribed by this act, the commission may expend such sums as may be appropriated for its use by the legislature, and with the authority of the governor and council such further sums as may in any emergency be necessary, such further sums to be paid out of any money in the treasury not otherwise appropriated.

Hearings before one or two commissioners.

SECT. 4. Paragraph (h) of said section 2 of said act is amended to read as follows:

(h) No commissioner shall sit upon the hearing of any question which the commission is to decide in a judicial capacity who would be disqualified for any cause, except exemption from service, to act as a juror upon the trial of the same question between the same parties in an action at law. This shall not be construed to apply to inquests in accident cases. A majority of the commission shall constitute a quorum to transact business, and any hearing or investigation may be held or conducted by two commissioners or by a single commissioner, but no order, rule or regulation shall be made and promulgated except by the full commission or a majority thereof; *provided, however*, that no hearing or investigation, except in accident cases, shall be held or conducted by a single commissioner if any party whose interests may be affected shall five days before the date of hearing file a request in writing that the same be held or conducted by the full commission, or a majority thereof.

Compulsory attendance of witnesses.

SECT. 5. Paragraph (1) of said section 2 of said act is amended to read as follows:

(1) The commission shall have power to subpoena witnesses and administer oaths to witnesses in any proceeding or examination instituted before it or conducted by it, and to compel by subpoena *duces tecum* the production of any accounts, books, contracts, records, documents, memoranda and papers of any kind whatever. Witnesses summoned before the commission shall be paid the same fees as witnesses summoned to appear before the superior court, and such summons issued by any justice of the peace shall have the same effect as though issued for appearance before the superior court. When any such summons shall be endorsed by the clerk of the commission, or by the assistant clerk, or by a commissioner, as follows, "Legal fees of witnesses guaranteed by the State," advance payment of fees shall not be required, but any witness served with such summons shall appear as directed therein as a witness for the state, and his legal fees therefor shall be paid out of any appropriation for the use of the commission available for the purpose. In lieu of requiring production of originals by subpoena *duces*

*tecum* it may require sworn copies of any such books, records, contracts, documents and papers or parts thereof to be filed with it. The commission may also require any railroad corporation or public utility to make specific answers to questions upon which the commission may need information. Witnesses who refuse or neglect to appear, or who refuse to testify, may be compelled to do so, and for that purpose the commission may apply to any justice of the superior court, upon proof by affidavit of the facts, for an order returnable in not more than five days, directing any person so refusing to show cause before the justice making the order, or any other justice of the superior court, why he should not be committed as for contempt. Upon the return of such order, the justice before whom the matter shall come for hearing shall determine whether such respondent has refused without reasonable cause or legal excuse to be examined or to answer a legal and pertinent question, or to produce a book or paper which he was ordered to bring, and if the respondent be found guilty, the court may commit him as for contempt, so to remain until he submits to do the act which he was so required to do or is discharged according to law.

SECT. 6. Said section 2 of said act is further amended by adding thereto the following paragraphs: Assistant clerk; independent investigations.

(o) The commission may employ an assistant clerk, and any record, order, certificate or other process, document or paper issued or made by said commission may be signed by the clerk, or by said assistant clerk, or by any commissioner.

(p) In any case in which, under this or any other act, the commission may hold a hearing, it may, before or after such hearing, make such independent investigation as in its judgment the public good may require: *provided, however*, that whenever such investigation shall disclose any facts which the commission shall intend to consider in the making of any decision or order, such facts shall be stated and made a part of the record, and any party whose rights may be affected shall be afforded a reasonable opportunity to be heard with reference thereto or in denial thereof.

SECT. 7. Paragraph (b) of section 7 of said act is amended to read as follows: Change in rate, etc., notice of.

(b) Unless the commission otherwise orders, no change shall be made in any rate, fare, charge or price, which shall have been filed or published by a railroad corporation or public utility in compliance with the requirements of this section except after thirty days' notice to the commission and such notice to the public as the commission within ten days after receipt of the notice aforesaid shall direct. The commission may approve a general retroactive reduction in rates by any public utility covering service for which payment has not been made when no discrimination will be caused thereby. In the case of railroad corporations and public utilities

subject to regulation by the interstate commerce commission, the requirements relative to the filing of schedules with the commission and to the publication thereof shall conform as nearly as may be to the requirements of the interstate commerce commission under the provisions of the act of congress entitled "An Act to Regulate Commerce," and the acts amendatory thereof and supplementary thereto.

Compulsory production of books, etc.; wilfully false statements, etc., prohibited.

SECT. 8. Section 8 of said act is amended by adding thereto the following paragraphs:

(c) The commission by order may require any railroad corporation or public utility to produce within the state at such time and place as it may designate, any accounts, records, memoranda, books or papers kept in any office or place without the state, or verified copies thereof, in order that an examination thereof may be made by the commission or under its direction.

(d) No railroad corporation or public utility shall wilfully make any false statement or false entry in any report to the commission, or in any answer to any question lawfully asked by the commission.

Right to inspect and investigate.

SECT. 9. Paragraphs (b) and (c) of section 10 of said act are amended to read as follows:

(b) The commission may, of its own motion, investigate or make inquiry, in a manner to be determined by it, as to any act or thing done or omitted to be done by any railroad corporation or public utility, and the commission shall make such inquiry in regard to any act or thing done or omitted to be done by any such railroad corporation or public utility in violation of any provision of law or order of the commission. It may at any time personally, or by its experts or agents, inspect the property, works, system, plant, devices, appliances and methods used by any railroad corporation or public utility, or the books, papers and records of any such railroad corporation or public utility. Any expert or agent of the commission, however, who shall make a demand on behalf of the commission to be allowed to inspect as aforesaid, shall produce written authority to make such inspection signed by the clerk or assistant clerk or by some member of the commission.

(c) Upon complaint made by the city council or city councils of any city, or by the mayor of any city, or by the selectmen of any town in which a public utility is authorized to manufacture, sell or supply gas or electricity for heat, light or power, or to supply water, or to transmit telephone or telegraph messages, or upon the complaint in writing of not less than one hundred customers or subscribers of such public utility in cities of thirty thousand or more inhabitants, or of not less than fifty in cities of twenty thousand or more inhabitants, or of not less than twenty-five in any other city or town, or upon petition of a public utility as to the quality of the service

furnished by such public utility, or that the charges made therefor are excessive or insufficient, the commission shall investigate as to the cause for such complaint, and, after notice and hearing, may make such order, if any, as may in its opinion be necessary to establish just and reasonable rates or charges or as in its opinion may be necessary to require the making of any reasonable and just improvements in service or methods.

SECT. 10. Paragraph (a) of section 11 of said act is amended Fixing railroad rates. to read as follows:

SECT. 11. (a) Whenever the commission shall be of opinion, after a hearing had upon its own motion or upon complaint, that the rates, fares or charges demanded or collected or proposed to be demanded or collected by any railroad corporation or public utility for the transportation of persons or property within the state are unjust or unreasonable or that the regulations or practices of such railroad corporation or public utility affecting such rates are unjust or unreasonable, or in any wise in violation of any provision of law, or that the maximum rates, fares or charges, chargeable by any such railroad corporation or public utility are insufficient, the commission shall determine the just and reasonable or lawful rates, fares and charges to be thereafter observed and in force as the maximum to be charged for the service to be performed, and shall fix the same by order to be served upon all railroad corporations or public utilities by which such rates, fares and charges are thereafter to be observed; *provided, however*, that when any railroad corporation or such public utility shall seek the benefit of any order of the commission allowing said railroad corporation or such public utility to charge and collect rates higher than charged at the time said order is asked for, the burden of proving the necessity of the increase shall be upon said railroad corporation or such public utility and *provided, further*, that the commission shall not allow an increase above any rate prescribed or limited by statute.

SECT. 11. Paragraph (b) of section 11 of said act is amended Reconstruction of railroads, etc. to read as follows:

(b) Whenever the commission shall be of the opinion, after a hearing had upon its own motion or upon complaint, that any part of any railroad within the state reasonably requires alteration or reconstruction, or that the regulations, practices, equipment, appliances, or service of any railroad corporation or public utility operating as a common carrier of passengers or freight in respect to transportation of persons or property within the state are unjust, unreasonable, unsafe, improper or inadequate, the commission shall determine the reconstruction or alteration reasonably required, or the just, reasonable, safe, adequate and proper regulations, practices, equipment, appliances and service thereafter to be in force, or to be provided, and shall fix and prescribe the same

by order to be served upon every railroad corporation or such public utility to be bound thereby; and thereafter it shall be the duty of every such railroad corporation or such public utility to observe and obey each and every requirement of every such order so served upon it, and to do everything necessary or proper in order to secure absolute compliance with, and observance of, every such order by all of its officers, agents and employees.

Order for reparation; joint service and rates; interstate rates; emergency rates.

SECT. 12. Said section 11 of said act is further amended by adding thereto the following paragraphs:

(e) Whenever complaint has been made to the commission covering any rate, fare, charge or price demanded and collected by any railroad corporation, and the commission has found after hearing and investigation that an unjustly discriminatory rate, fare, charge or price has been collected for any service, the commission may order the railroad corporation which has collected the same to make due reparation to the person who has paid the same, with interest from the date of the payment of such unjustly discriminatory amount, *provided, however*, that such order of reparation shall cover only payments made within two years before the date of filing the petition asking to have reparation ordered. Such order may be made without formal hearing whenever the railroad corporation affected shall assent in writing thereto, or file or join in a petition therefor, but in no case shall any such order be made until the commission shall be satisfied by such investigation as may be necessary that the rate, fare, charge or price collected was in fact unjustly discriminatory.

(f) After a hearing and investigation, either upon complaint or on its own motion, the commission may establish joint services to be participated in by two or more railroad corporations, and may ascertain, determine and fix just and reasonable rates, fares, charges, prices, classifications and rules and regulations relating thereto, which shall thereafter be demanded, collected, enforced and observed by such railroad corporations. The commission may prescribe the division of such joint rates, fares, charges, prices and classifications between railroad corporations joining in such services whenever such division shall not be made by agreement: and any division agreed upon shall be subject to revision by the commission if found to be inconsistent with the public interest, *provided*, that in establishing such through route, the commission shall not require any railroad corporation, without its consent, to embrace in such route substantially less than the entire length of its railroad and of any intermediate railroad operated in conjunction and under a common management or control therewith which lies between the termini of such proposed through route, unless to do so would make such through route unreasonably long as compared

with another practicable through route which could otherwise be established.

(g) Whenever, after hearing and investigation, the commission shall find any joint rate, fare, charge or price demanded and collected for any existing joint service participated in by two or more railroad corporations or public utilities to be unjust, unreasonable or discriminatory, it shall fix the same upon a just, reasonable and non-discriminatory basis, and if the railroad corporations or public utilities affected thereby shall fail to agree upon the division or apportionment thereof, the commission may prescribe the division of such joint rates, fares, charges and classifications between such railroad corporations or public utilities; and the commission may revise any division agreed upon which shall be found inconsistent with the public interest. Whenever joint service has been established by two or more public utilities, the commission shall have authority to prevent any unjust or unreasonable termination of the same, or to order the re-establishment of such service if so terminated.

(h) The commission may upon complaint investigate all existing or proposed interstate rates, fares, charges, classifications, and rules and regulations relating thereto, where any act thereunder may take place within this state, and when the same are found to be, in the opinion of the commission, unjust, unreasonable, unjustly discriminatory or otherwise in any respect in violation of the provisions of the act to regulate commerce, or of any other act of congress, or in conflict with the rules and orders of the interstate commerce commission, or of any other department of the federal government, the commission may apply for relief by petition or otherwise to the interstate commerce commission, or to any other department of the federal government, or to any court of competent jurisdiction.

(i) Whenever the commission shall be of the opinion that an emergency exists it may authorize any railroad corporation or public utility temporarily to alter, amend or suspend any existing rate, fare, charge, price, classification, or rule or regulation relating thereto.

SECT. 13. Section 13 of said act is amended to read as follows:

SECT. 13. (a) No public utility shall commence within this state the business of transmission of telephone or telegraph messages or of supplying the public with gas, electricity or water, or shall engage in such business or begin the construction of a plant, line, main or other apparatus or appliance intended to be used therein in any city or town in which at the time it shall not already be engaged in such business, or shall exercise any right or privilege under any franchise hereafter granted (or any franchise heretofore granted but not heretofore actually exercised) in such town, without first

Approval of public utilities; approval of leases, etc.; acquisition of securities of other companies; foreign utilities not to be approved, etc.; land for new construction, how secured.

having obtained the permission and approval of the commission. The commission shall grant such permission whenever it shall, after due hearing, determine and find that such engaging in business, such construction or such exercise of the right, privilege or franchise would be for the public good and not otherwise; and may prescribe such terms and conditions upon the exercise of the privilege granted under such permission as it shall consider for the public interest. Authority granted under the provisions of this section may only be exercised within two years after the same shall be granted and shall not be exercised thereafter.

(b) Any public utility may transfer or lease its franchise, works or system, or any part of such franchise, works or system, exercised or located in this state, or contract for the operation of its works and system located in this state when the commission shall make an order assenting thereto, but not otherwise. The commission shall make such order in any case where it shall appear that the proposed transfer, lease or contract would be for the public good and not otherwise. Any such attempted transfer, lease, or contract shall be void unless the same shall have been approved by the commission.

(c) No public utility shall directly or indirectly acquire the stocks or bonds of any other corporation incorporated in or doing business in this state and engaged or preparing to engage in the same or a similar business unless authorized to do so by order of the commission; *provided, however*, that nothing in this act shall in any manner prevent a public utility being in fact the owner at the time of the passage of this act of the majority of the capital stock of any other public utility or leasing or operating such other public utility, from acquiring the balance or all of the outstanding capital stock of such other public utility a majority of which stock is so owned or which is so leased or operated. Every contract, assignment, transfer, or agreement for transfer of any stock by or through any person or corporation to any corporation in violation of any provision of this section shall be void and of no effect, and no such transfer or assignment shall be made upon the books of any public utility, or shall be recognized as effective for any purpose.

(d) No permission under paragraph (a) of this section shall be granted to any corporation not organized under the laws of the state of New Hampshire, and no authority to transfer or lease the franchises, works or system, or any part of the franchises, works or system of any public utility in this state to any such corporation shall be granted under paragraph (b) of this section, *provided, however*, that the provisions of this paragraph shall not apply to any corporation now operating a public utility plant in this state, or doing or desiring to do an interstate business.

(e) Whenever it is necessary, in order to meet the reasonable requirements of service to the public that any railroad corporation or public utility subject to supervision under this act should construct a line, branch line, extension or a pipe-line, conduit, line of poles, towers or wires across the land of any other person or corporation, or should acquire land for necessary extension of any plant or works operated by such railroad corporation or public utility, and such railroad corporation or public utility cannot agree with the owner or owners of such land as to the necessity or the price to be paid therefor, such railroad corporation or public utility may petition the commission for such rights and easements or for permission to take such lands as may be needed for said purposes. Said commission shall, upon due notice to all parties in interest, hear and determine the necessity for the right prayed for and the compensation to be paid therefor, and shall render judgment accordingly. In the case of railroad corporations, the proceedings in said matters shall be as is provided in chapter 158 of the Public Statutes relating to taking for railroad purposes; and any party aggrieved shall have the same rights of appeal as are therein provided. In the case of a public utility, the petition shall set out the title and the description of the land involved, the rights to be taken therein and the public use for which the same are desired, and a certified copy of the petition and final decree thereon shall be recorded, if said petition shall be granted, in the registry of deeds in the county or counties in which the real estate affected thereby is located. Any party aggrieved by the order of the commission awarding damages may, within sixty days after the entry of the order and not afterwards, file in the superior court of the county in which the land is located a petition to have the damages assessed by a jury, upon which petition order of notice shall issue, and after the order of notice has been complied with the court shall assess such damages by jury.

SECT. 14. Paragraphs (a) and (c) of section 14 of said act are amended to read as follows:

Stock and bond  
issues regulated;  
offer of new stock  
to stockholders.

SECT. 14. (a) No railroad corporation or public utility shall issue any stock, bonds, notes or other evidence of indebtedness payable more than twelve months after the date thereof, without first procuring an order of the commission authorizing the same. Upon petition of a railroad corporation or public utility the commission shall, after public notice and hearing, determine the amount of stock or bonds which in its opinion is reasonably requisite for the purposes for which the issue is to be made, and shall within thirty days after final hearing upon such petition file in the office of the secretary of state a certificate setting out the amount of the increase which it has authorized, and the purposes for which the proceeds

of such new stock or bonds may be used. No railroad corporation or public utility shall apply the proceeds of any stock, bonds or notes to any other purpose than those specified in the order of the commission authorizing the issue of the same. Every railroad corporation and public utility issuing stock, bonds or other evidence of indebtedness subject to the provisions of this section shall file with the commission an account showing in such detail as the commission shall require the disposition of the proceeds of such issue; *provided, however*, that no public utility or railroad corporation subject to the provisions of this act shall be required to apply to the commission for authority to issue stock, bonds, notes or other evidence of indebtedness except for the acquisition of property, the construction, completion, extension or improvement of its facilities or the improvement or maintenance of its service within this state, or the discharge or refunding of its obligations or reimbursement of moneys actually expended for such purposes; and *provided, further*, that no unincorporated person or partnership, being a public utility through the ownership, operation or management of property devoted to public use but owned by an unincorporated person or partnership, shall be required to apply to the commission for authority to issue notes unless the same are to be secured by mortgage of the property so devoted to public use.

(c) Whenever a railroad corporation or public utility shall increase its capital stock it shall, except as hereinafter provided, offer the new shares proportionately to its stockholders at such price not less than the par value thereof as shall have been determined by its stockholders in their vote for the issue of the same. The directors shall cause written notice of the increase in capital stock to be given to each stockholder of record upon the books of the corporation at the date designated by the directors at a meeting following the order of the commission authorizing the issue, which notice shall state the amount of the increase, the number of shares or fractions of shares to which the stockholder is entitled, the price at which he is entitled to take them, and shall fix a time not less than fifteen days after the date so designated by the directors within which he may subscribe therefor. Each stockholder may within the time so limited subscribe for his proportion of the new stock which shall be paid for in cash before the issue of a certificate. The determination by the commission of the amount of stock reasonably requisite for the purpose for which the issue is made shall be based upon the price at which such stock is to be offered to stockholders as fixed by the vote of the stockholders, *provided, however*, that the commission shall refuse to authorize any particular issue of stock by a railroad corporation incorporated in New Hampshire whose road is leased to or operated by another railroad corporation, if in its

opinion the price fixed by the stockholders is so low as to be inconsistent with the public interests.

SECT. 15. Paragraphs (d) and (e) of said section 14 of said act are amended and three new paragraphs, (f), (g) and (h), are added, said paragraphs amended and added to read as follows:

(d) When an increase in capital stock does not exceed four per cent. of the existing capital stock of the corporation the directors may, without first offering the same to the stockholders, sell the new shares by public auction to the highest bidder at not less than par value to be actually paid in cash. If after the expiration of the notice to stockholders hereinbefore provided any shares of the new issue of stock remain unsubscribed by stockholders entitled to take them, the directors shall sell the same by public auction to the highest bidder at not less than par value to be actually paid in cash. All shares of stock to be disposed of by public auction to the highest bidder under the provisions of this act shall be offered for sale in such city or town as may be prescribed by the commission, and the notice of the time and place of sale shall be published at least five times immediately preceding the time fixed for the sale, in such newspapers, not less than three in number, as may be prescribed by the commission, unless the commission shall allow publication in a less number of papers or a less number of times.

Sale of new stock by auction; stock and bonds for purchase of like companies; individual liability; increase of capital beyond amount fixed by law; mortgage of franchises and property.

(e) The commission may authorize a public utility to issue its stocks or bonds in payment for property or stock, bonds or other securities of like corporations which it may lawfully acquire, upon such terms as the commission may approve, having due regard to the public good. The commission in any case when the stockholders of a public utility, by unanimous vote of the stockholders present and voting at any regularly called meeting, have voted not to offer a proposed new issue of stock proportionately to stockholders, or in any case when, after such offer, stock remains unsubscribed for, may authorize said proposed new issue, or said stock remaining unsubscribed for, to be disposed of otherwise than to stockholders or by auction, but at not less than par, to be actually paid in cash.

(f) Whenever a public utility incorporated under the laws of this state shall apply to the commission for authority to issue any stock for the issuing whereof the approval of the commission is required by the provisions of this or any other act, the stockholders in such public utility shall not become individually liable for debts and contract of the corporation under section 8 of chapter 150 of the Public Statutes if the amount of stock which the commission authorizes the corporation to issue upon any such application is paid in and a certificate of the treasurer and a majority of the directors to that effect is executed, filed and recorded in the manner provided by said section 8 within ninety days after the filing

in the office of the secretary of state of the order of the commission authorizing the issue of such stock; *provided*, in cases where such stock is an increase of prior capital, that the whole amount of the prior capital as theretofore fixed and limited by the corporation, or so much thereof as the stockholders have voted to issue or as the commission has authorized to be issued, has also been paid in and that the certificate so filed by the treasurer and directors shows that fact.

(g) A railroad corporation or public utility for the purpose of supplying itself with working capital, may, when the public good will be thereby promoted, and with the authority of the commission as herein provided, increase its capital stock or bonds beyond the amount fixed by its charter or by any act of the general court, *provided* that such increase of capital stock or issue of bonds shall first be authorized by the vote of a majority of the stockholders present at any meeting of the corporation duly called for that purpose, and *further provided* that an increase of capital stock or an issue of bonds for the purpose of supplying such corporation with working capital as aforesaid shall not be to an amount exceeding five per cent. of the par value of its capital stock then outstanding.

(h) A railroad corporation or public utility may mortgage its property and franchises, present and future, to secure the payment of its bonds, including any bonds to be thereafter issued under the provisions of such mortgage.

SECT. 16. Section 15 of said act is amended to read as follows:

SECT. 15. (a) The commission shall investigate the causes of all accidents happening upon the railroads of the state resulting in the loss of life, and of all other accidents happening upon said railroads or in connection with the operation of public utilities in the state, which, in the opinion of the commission, ought to be investigated. Any such investigation may be made by the full commission, or by a single commissioner, or by an agent of the commission, in such manner as the commission may determine.

(b) Every railroad corporation and public utility shall report to the commission accidents occurring in connection with the operation of its business wherein loss of life occurs or any person is injured, or of such a nature as to endanger the safety, health or property of its consumers or the public, as and whenever directed by such rules and regulations as the commission may prescribe.

(c) Reports of accidents filed under the preceding paragraph shall not be made public otherwise than in the published reports of the commission.

SECT. 17. Said act is further amended by inserting after section 16 a new section as follows:

SECT. 17. No corporation engaged in the generation of electrical

energy by water power shall engage in the business of transmitting or conveying the same beyond the confines of the state unless it shall first file notice of its intention so to do with the public service commission and obtain an order of said commission permitting it to engage in such business. The commission may of its own motion or on application of any person, investigate or make inquiry, in a manner to be determined by it, as to the existence of an available market at fair rates within the state; and if it shall find that such a market does not exist within a reasonable distance of the power development, it may make an order granting such permission and may impose the condition that consumers within the state shall be furnished service by said corporation upon terms as favorable as shall be granted to consumers outside the state, having due regard to all facts and conditions which may affect said subject; *provided, however,* that nothing in this paragraph shall apply to corporations now engaged in the business of transmitting such electrical energy to any place outside the state, but any addition to such energy generated from any water power except such as it may be using in connection with such business at the date of the passage of this act, shall come under the provisions of this paragraph. *Provided, further,* that the provisions of this paragraph shall not apply to the transmitting of electrical energy generated from water powers upon the Connecticut river: nor shall they prevent any railroad corporation doing business in this state from transmitting electrical energy beyond the confines of the state for the purpose of operating its road between some point in this state and any point or points outside the state.

SECT. 18. Said act is further amended by inserting after said section 17, so inserted, five new sections as follows:

SECT. 18. Any railroad or public utility ordered to make reparation under the provisions of paragraph (e) of section 11, as amended, shall conform to said order and make payment as required therein. Upon failure to make such payment upon demand, the amount ordered paid may be recovered with interest in an action of debt brought by the person to whom payment was ordered, except that in the case of costs ordered paid to the commission, suit shall be brought in the name of the state of New Hampshire. Like action may also be brought to recover fees due the commission. In any such action brought to recover costs, fees or reparation ordered, the plaintiff shall be entitled to tax as costs all of his necessary expenses in the action, including reasonable attorneys' fees.

SECT. 19. Sections 1 and 2 of chapter 50 of the Laws of 1905, entitled, "An Act Relating to the Inspection and Licensing of Boats, and the Examination and Licensing of their Captains, Masters, Engineers and Pilots," are hereby repealed. Until other-

wise provided by law the powers and duties imposed by that act upon inspectors appointed thereunder, and upon the board of railroad commissioners, shall be exercised and performed by the public service commission, and said commission, subject to the same supervision by the governor and council as shall be provided by law with reference to its other employees, may employ such inspectors and assistants as it may require for the proper performance of said duties. All fees collected under the provisions of said act shall be paid into the state treasury as provided by chapter 164 of the Laws of 1911, as amended by this act.

Prior provision repealed.

SECT. 20. (a) Section 17 of said act in its original form is repealed, but said repeal shall not affect the rights of any party to any proceeding pending in the superior court at the time of the passage of this act. Sections 18 and 19 of said act are amended by renumbering the same as sections 23 and 24 respectively.

(b) Section 20 of said act is amended and renumbered to read as follows:

Reports of commission.

SECT. 25. (a) The commission shall biennially publish and file with the secretary of state a report to the governor and the legislature not later than December first in the year preceding the biennial session of the legislature. Such report shall contain such account of its proceedings for the two years last preceding and such suggestions and recommendations as to needed legislation or as to other matters affecting railroad corporations and public utilities as the commission may desire to submit.

(b) The commission may, from time to time, subject to the approval of the governor and council, publish such of its reports and orders and such statistics and other information concerning railroad corporations and public utilities doing business in this state as the commission may deem to be of public interest.

(c) Section 21 of said act is amended and renumbered to read as follows:

Prior provisions repealed.

SECT. 26. Sections 5 and 6 of chapter 155 of the Public Statutes, sections 18, 19, and 20 of chapter 156 of the Public Statutes, and chapter 19 of the Laws of 1897, chapter 42 of the Laws of 1901, chapter 60 of the Laws of 1909, and chapter 100 of the Laws of 1907 are expressly repealed: *provided, however*, that such repeal shall not affect the rights of either party in any proceeding now pending. All acts and parts of acts which in any way conflict with the provisions of this act are repealed so far as they do so conflict.

(d) All acts and parts of acts in any way in conflict with this act are hereby repealed so far as they do so conflict, and this act shall take effect upon its passage, *provided* that nothing in this act shall be so construed as to amend or repeal "An Act to provide a Method for adjusting the Maximum Rates for Fares and Freights on Steam Railroads," approved April 29, 1913.

SECT. 21. All sums collected in fees by the commission or paid to it as costs shall be turned into the state treasury at least once each month with an itemized statement of the same, and without further legislative act shall stand appropriated for the support of the commission, and shall be available for expenditure by the commission in the performance of its duties under this or any other act; and such appropriation shall not lapse at the end of any fiscal year, but shall continue to be held subject to expenditure for the purposes aforesaid unless otherwise provided by subsequent legislative act.

Fees and costs,  
disposition of.

SECT. 22. (a) Within twenty days after any order or decision has been made by the commission, any party to the action or proceeding, or any stockholder or bondholder or other person pecuniarily interested in the railroad corporation or public utility affected, may apply for a rehearing in respect to any matter determined in said action or proceeding, or covered or included in said order, specifying in the motion for rehearing the ground therefor, and the commission may grant such rehearing, if in its opinion good reason therefor is stated in said motion.

Rehearings, when  
granted and pro-  
cedure thereon.

(b) Such motion shall set forth fully every ground upon which it is claimed that the decision or order complained of is unlawful or unreasonable. No appeal from any order or decision of the commission shall be taken by any corporation or person unless such corporation or person shall have made application for rehearing as herein provided, and when such application shall have been made, no ground not set forth therein shall be urged, or relied on, or given any consideration by the court, unless the court for good cause shown shall allow the appellant to specify additional grounds.

(c) Upon the filing of such motion for rehearing, the commission shall within ten days of such filing either grant or deny the same, or suspend the order or decision complained of pending further consideration, and any order of suspension may be upon such terms and conditions as the commission may prescribe.

(d) Within thirty days after the application for a rehearing is denied, or if the application is granted, then within thirty days after the decision on such rehearing, the applicant may appeal by petition to the supreme court. Such petition shall state briefly the nature of the proceeding before the commission, and shall set forth the order or decision complained of, and the grounds upon which the same is claimed to be unlawful or unreasonable upon which the petitioner will rely in the supreme court. Any person or corporation whose rights may be directly affected by said appeal may appear and become a party, or the court may order such persons and corporations to be joined as parties as justice may require. Upon the filing of an appeal petition the clerk of the court shall

issue an order of notice requiring the commission to file with the court a certified copy of the record in the proceeding, together with such of the evidence introduced before or considered by the commission as may be specified by any party in interest, as well as such other evidence, so introduced and considered, as the commission may deem proper to certify, together with the originals or copies of all exhibits introduced in evidence before the commission. Such notice as the court may order shall also be given to persons and corporations who were parties to the proceeding before the commission or who may be ordered joined by the court.

(e) Upon the filing of said certified copy of said record, and evidence and exhibits, the case shall be in order for argument at the next regular session of the court unless the same be postponed for good cause shown. Upon the hearing the burden of proof shall be upon the party seeking to set aside any order or decision of the commission to show that the same is clearly unreasonable or unlawful, and all findings of the commission upon all questions of fact properly before it shall be deemed to be *prima facie* lawful and reasonable, and the order or decision appealed from shall not be set aside or vacated except for errors of law unless the court is satisfied by a clear preponderance of the evidence before it that such order is unjust or unreasonable.

(f) No new or additional evidence shall be introduced in the supreme court, but the case shall be determined upon the record, and evidence transferred, except that, in any case, if it shall be necessary in order that no party shall be deprived of any constitutional right, or if the court shall be of the opinion that justice requires the reception of evidence of facts which have occurred since the hearing, or which by reason of accident, mistake or misfortune could not have been offered before the commission, it may receive and consider additional evidence. Such additional evidence may be taken before a single justice or otherwise as the court may order. All evidence transferred by the commission shall be and all additional evidence received may be, considered by the court regardless of any technical rule which might have rendered the same inadmissible if originally offered in the trial of an action at law.

(g) If the court in any case shall hear new evidence, such new evidence shall, upon the motion of any party, be transmitted by copy to the commission, and all proceedings shall be stayed for twenty days from the date of such transmission. Upon receipt of such evidence, the commission shall consider the same and may alter, modify, amend or rescind the order or decision appealed from, and shall report its action thereon to the court within said twenty days. If the commission shall rescind the order appealed from, the appeal shall be dismissed; if it shall alter, modify or

amend the same, such altered, modified or amended order shall take the place of the original order complained of, and the court shall render judgment with reference thereto in said appeal as though said order had been made by the commission in the first instance, after allowing any amendments of the pleadings or other incidental proceedings desired by the parties which the changed situation may require.

(h) No proceeding other than the appeal herein provided for shall be maintained in any court of this state to set aside, enjoin the enforcement of, or otherwise review or impeach any order of the commission. The final judgment upon every appeal shall be a decree dismissing the appeal, or vacating the order complained of in whole or in part, as the case may be; but in case such order is wholly or partly vacated the court may also, in its discretion, remand the matter to the commission for such further proceedings, not inconsistent with the decree, as in the opinion of the commission justice may require.

(i) No appeal or other proceedings taken from an order of the commission shall suspend the operation of such order; *provided, however,* that the supreme court may order a suspension of such order pending the determination of such appeal or other proceeding whenever, in the opinion of the court, justice may require such suspension; but no order providing for a reduction of rates, fares or charges shall be suspended except upon conditions to be imposed by the court providing a means for securing the prompt repayment of all excess rates, fares and charges over and above the rates, fares and charges which shall be finally determined to be reasonable and just. Any order of the court suspending an order of the commission fixing rates, fares, charges or prices, shall, among other things, provide that the railroad corporation or public utility affected by the order suspended shall keep such accounts as shall suffice to show the amount being collected by such railroad corporation or public utility, pending the appeal, in excess of the amounts which it would have collected if the order or decree of the commission had not been suspended, and that any such excess shall be impounded within the state or paid into court. Whenever there is occasion after final decision for the distribution of said excess, any violation on the part of any railroad corporation or public utility, or of the officers or members thereof, of the order of the court providing for the repayment of said excess may be punishable as a contempt of court.

(j) The provisions of this section shall not apply to appeals from the assessment of damages in eminent domain proceedings, but such appeals shall be taken and prosecuted as provided in section 13 of this act, or as may be otherwise provided by law.

Sections renum-  
bered.

SECT. 19. Section 17 of said act in its original form is repealed, and sections 18, 19, 20 and 21 are amended by renumbering the same as sections 23, 24, 25 and 26 respectively, but the repeal of said section 17 shall not affect the rights of any party to any proceeding pending in the superior court at the time of the passage of this act.

Repealing clause;  
act takes effect  
on passage.

SECT. 20. Chapter 50 of the Laws of 1905, sections 5 and 6 of chapter 155 of the Public Statutes, and all other acts and parts of acts inconsistent herewith are hereby repealed, and this act shall take effect upon its passage.

In carrying out this section, the public service commission may serve orders and enforce compliance with such orders as provided in chapter 164, Laws of 1911, and amendments thereto.

Railroad employees may be deputy fire wardens.

SECT. 2. The state forester is hereby authorized to appoint as deputy forest fire wardens the section foremen or such other railroad employees as the authorized officials of the railroad may recommend. Such deputies when so appointed shall be vested with the powers and duties of deputy forest fire wardens as provided in chapter 128, Laws of 1909, and amendments thereto, except as such powers and duties are limited or extended by this act. Railroad deputies thus appointed shall extinguish and supervise the fighting of forest and brush fires originating along the railroad right of way, but shall not be required to supervise the fighting of fires which do not originate along the right of way. The forestry commission shall instruct all wardens and other employees of the forestry department to co-operate with the railroad deputies in the prevention and extinguishment of railroad fires, to immediately notify the nearest station agent or railroad deputy upon the discovery of a fire along the right of way, and to combat such fire until the railroad deputy or other

Prior to making such a clearing, the railroad company shall give the owner thereof notice of its intention by letter deposited in the United States mail to his last known address, and thereafter by publishing said notice at least once in two papers of general circulation in the county. Said notice shall quote section 4 of this act. If the owner shall not file an objection to such clearing with the public service commission within fifteen days from the date of such publication, he shall be deemed to have given consent. Upon the filing of such an objection by an owner, the public service commission shall notify the owner the time and place when he may appear to show cause why such clearing should not be done. Any operator of wood or timber on such land, or any owner of such land where cutting is done may be fined not more than ten dollars for each acre of such land or fraction thereof from which the inflammable material is not properly disposed of within sixty days from the cutting of the trees thereon; *provided* that any owner or operator who cuts wood or timber, during the winter, after November first, shall have until May first in Grafton, Carroll, and Coos counties and until April first in other counties to remove the slash in accordance with the provisions of this section. If such slash is destroyed by burning, such burning shall be done with permission of the town forest fire warden. The forestry commission is hereby charged with the execution of this section, and all owners or operators shall be required to use due care in clearing such land and shall not be relieved of liability of damage imposed by chapter 128, Laws of 1909, and amendments thereto. But no owner of such land shall be liable for damages resulting from fires not set by himself or his agents.

SECTION 1. On and after the first day of January, 1914, no policy of insurance against loss or damage from the sickness, or the bodily injury or death of the insured by accident shall be issued or Forms of policy,  
etc., to be filed.

delivered to any person in this state until a copy of the form thereof and of the classification of risks and the premium rates pertaining thereto have been filed with the insurance commissioner; nor shall it be so issued or delivered until the expiration of thirty days after it has been so filed unless the said commissioner shall sooner give his written approval thereto. If the said commissioner shall notify, in writing, the company, corporation, association, society or other insurer, which has filed such form that it does not comply with the requirements of law, specifying the reasons for his opinion, it shall be unlawful thereafter for any such insurer to issue any policy in such form. The action of the said commissioner in this regard shall be subject to review by the superior court.

Requirements as  
to policy.

SECT. 2. No such policy shall be so issued or delivered (1) unless the entire money and other considerations therefor are expressed in the policy; nor (2) unless the time at which the insurance thereunder takes effect and terminates is stated in a portion of the policy preceding its execution by the insurer; nor (3) unless every printed portion thereof and of any endorsements or attached papers shall be plainly printed in type of which the face shall be not smaller than ten point; nor (4) unless a brief description thereof be printed on its first page and on its filing back in type of which the face shall be not smaller than fourteen point; nor (5) unless the exceptions of the policy be printed with the same prominence as the benefits to which they apply, *provided, however*, that any portion of such policy which purports, by reason of the circumstances under which a loss is incurred, to reduce any indemnity promised therein to an amount less than that provided for the same loss occurring under ordinary circumstances, shall be printed in bold face type and with greater prominence than any other portion of the text of the policy.

Standard pro-  
visions.

SECT. 3. Every such policy so issued shall contain certain standard provisions, which shall be in the words and in the order hereinafter set forth and be preceded in every policy by the caption standard provisions, *provided, however*, that the conditions of such standard provisions may be so varied as to grant more favorable terms to the policyholder, but all such provisions shall be in such form as the insurance commissioners may approve. In each such standard provision wherever the word insurer is used, there shall be substituted therefor company or corporation or association or society or such other word as will properly designate the insurer. Said standard shall be: (1) A standard provision relative to the contract which may be in either of the following two forms: Form (A) to be used in policies which do not provide for reduction of indemnity on account of change of occupation, and Form (B) to be used in policies which do so provide. If Form (B) is used and

the policy provides indemnity against loss from sickness, the words or contracts sickness may be inserted therein immediately after the words in the event that the insured is injured: (A):—1. This policy includes the endorsements and attached papers if any, and contains the entire contract of insurance. No reduction shall be made in any indemnity herein provided by reason of change in the occupation of the insured or by reason of his doing any act or thing pertaining to any other occupation. (B):—1. This policy includes the endorsements and attached papers if any, and contains the entire contract of insurance except as it may be modified by the insurer's classification of risks and premium rates in the event that the insured is injured after having changed his occupation to one classified by the insurer as more hazardous than that stated in the policy, or while he is doing any act or thing pertaining to any occupation so classified, except ordinary duties about his residence or while engaged in recreation, in which event the insurer will pay only such portion of the indemnities provided in the policy as the premium paid would have purchased at the rate but within the limits so fixed by the insurer for such more hazardous occupation. If the law of the state in which the insured resides at the time this policy is issued requires that prior to its issue a statement of the premium rates and classification of risks pertaining to it shall be filed with the state official having supervision of insurance in such state then the premium rates and classification of risks mentioned in this policy shall mean only such as have been last filed by the insurer in accordance with such law, but if such filing is not required by such law then they shall mean the insurer's premium rates and classification of risks last made effective by it in such state prior to the occurrence of the loss for which the insurer is liable. (2) A standard provision relative to changes in the contract, which shall be in the following form: 2. No statement made by the applicant for insurance not included herein shall avoid the policy or be used in any legal proceeding hereunder. No agent has authority to change this policy or to waive any of its provisions. No change in this policy shall be valid unless approved by an executive officer of the insurer and such approval be endorsed hereon. (3) A standard provision relative to reinstatement of policy after lapse which may be in either of the three following forms: Form (A) to be used in policies which insure only against loss from accident; form (B) to be used in policies which insure only against loss from sickness; and form (C) to be used in policies which insure against loss from both accident and sickness. (A):—3. If default be made in the payment of the agreed premium for this policy, the subsequent acceptance of a premium by the insurer or by any of its duly authorized agents shall reinstate the policy, but only to cover

loss resulting from accidental injury thereafter sustained. (B) :—3. If default be made in the payment of the agreed premium for this policy, the subsequent acceptance of a premium by the insurer or by any of its duly authorized agents shall reinstate the policy but only to cover such sickness as may begin more than ten days after the date of such acceptance. (C) :—3. If default be made in the payment of the agreed premium for this policy, the subsequent acceptance of a premium by the insurer or by any of its duly authorized agents shall reinstate the policy but only to cover accidental injury thereafter sustained and such sickness as may begin more than ten days after the date of such acceptance. (4) A standard provision relative to time of notice of claim which may be in either of the three following forms: Form (A) to be used in policies which insure only against loss from accident; form (B) to be used in policies which insure only against loss from sickness, and form (C) to be used in policies which insure against loss from both accident and sickness. If form (A) or form (C) is used the insurer may at its option add thereto the following sentence, In event of accidental death immediate notice thereof must be given to the insurer. (A) :—4. Written notice of injury on which claim may be based must be given to the insurer within twenty days after the date of the accident causing such injury. (B) :—4. Written notice of sickness on which claim may be based must be given to the insurer within ten days after the commencement of the disability from such sickness. (C) :—4. Written notice of injury or of sickness on which claim may be based must be given to the insurer within twenty days after the date of the accident causing such injury or within ten days after the commencement of disability from such sickness. (5) A standard provision relative to sufficiency of notice of claim which shall be in the following form and in which the insurer shall insert in the blank space such office and its location as it may desire to designate for such purpose of notice: 5. Such notice given by or in behalf of the insured or beneficiary, as the case may be, to the insurer at ..... or to any authorized agent of the insurer, with particulars sufficient to identify the insured, shall be deemed to be notice to the insurer. Failure to give notice within the time provided in this policy shall not invalidate any claim if it shall be shown not to have been reasonably possible to give such notice and that notice was given as soon as was reasonably possible. (6) A standard provision relative to furnishing forms for the convenience of the insured in submitting proof of loss as follows: 6. The insurer upon receipt of such notice, will furnish to the claimant such forms as are usually furnished by it for filing proofs of loss. If such forms are not so furnished within fifteen days after the receipt of such notice the

claimant shall be deemed to have complied with the requirements of this policy as to proof of loss upon submitting within the time fixed in the policy for filing proofs of loss, written proof covering the occurrence, character and extent of the loss for which claim is made.

(7) A standard provision relative to filing proof of loss which shall be in such one of the following forms as may be appropriate to the indemnities provided: (A) :—7. Affirmative proof of loss must be furnished to the insurer at its said office within ninety days after the termination of the period of disability for which the company is liable. (C) :—7. Affirmative proof of loss must be furnished to the insurer at its said office in case of claim for loss of time from disability within ninety days after the termination of the period for which the insurer is liable, and in case of claim for any other loss, within ninety days after the date of such loss. (8) A standard provision relative to examination of the person of the insured and relative to autopsy which shall be in the following form: 8. The insurer shall have the right and opportunity to examine the person of the insured when and so often as it may reasonably require during the pendency of claim hereunder, and also the right and opportunity to make an autopsy in case of death where it is not forbidden by law. (9) A standard provision relative to the time within which payments other than those for loss of time on account of disability shall be made, which provision may be in either of the following two forms and which may be omitted from any policy providing only indemnity for loss of time on account of disability. The insurer shall insert in the blank space either the word “immediately” or appropriate language to designate such period of time, not more than sixty days, as it may desire; form (A) to be used in policies which do not provide indemnity for loss of time on account of disability and form (B) to be used in policies which do so provide. (A) :—9. All indemnities provided in this policy will be paid ..... after receipt of due proof. (B) :—9. All indemnities provided in this policy for loss other than that of time on account of disability will be paid ..... after receipt of due proof. (10) A standard provision relative to periodical payments of indemnity for loss of time on account of disability, which provision shall be in the following form, and which may be omitted from any policy not providing for such indemnity. The insurer shall insert in the first blank space of the form, appropriate language to designate the proportion of accrued indemnity it may desire to pay, which proportion may be all or any part not less than one-half, and in the second blank space shall insert any period of time not exceeding sixty days: 10. Upon request of the insured and subject

to due proof of loss . . . . . accrued indemnity for loss of time on account of disability will be paid at the expiration of each . . . . . during the continuance of the period for which the insurer is liable, and any balance remaining unpaid at the termination of such period will be paid immediately upon receipt of due proof. Indemnity for loss of life of the insured is payable to the beneficiary if surviving the insured and otherwise to the estate of the insured. All other indemnities of this policy are payable to the insured. (B) :—11. All the indemnities of this policy are payable to the insured. If the insured shall at any time change his occupation to one classified by the insurer as less hazardous than that stated in the policy, the insurer, upon written request of the insured, and surrender of the policy, will cancel the same and will return to the insured the unearned premium. (13) A standard provision relative to the rights of the beneficiary under the policy which shall be in the following form and which may be omitted from any policy not designating a beneficiary: 13. Consent of the beneficiary shall not be requisite to surrender or assignment of this policy, or to change of beneficiary, or to any other changes in the policy. (14) A standard provision limiting the time within which suit may be brought upon the policy as follows: 14. No action at law or in equity shall be brought to recover on the policy prior to the expiration of sixty days after proof of loss has been filed in accordance with the requirements of this policy, nor shall such action be brought at all unless brought within two years from the expiration of the time within which proof of loss is required by the policy. (15) A standard provision relative to time limitations of the policy as follows: 15. If any time limitation of this policy with respect to giving notice of claim or furnishing proof of loss is less than that permitted by the law of the state in which the insured resides at the time this policy is issued, such limitation is hereby extended to agree with the minimum period permitted by such law.

Optional standard provisions.

SECT. 4. No such policy shall be so issued or delivered which contains any provisions (1) relative to cancellation at the instance of the insurer; or, (2) limiting the amount of indemnity to a sum not less than the amount stated in the policy and for which the premium has been paid; or, (3) providing for the deduction of any premium from the amount paid in settlement of claim; or, (4)

relative to other insurance by the same insurer; or, (5) relative to the age limits of the policy; unless such provisions which are hereby designated as optional standard provisions, shall be in the words and in the order in which they are hereinafter set forth, but the insurer may at its option omit from the policy any such optional standard provisions. Such optional standard provisions if inserted in the policy shall immediately succeed the standard provisions named in section three of this act. *Provided, however* that the conditions of such optional standard provisions may be so varied as to grant more favorable terms to the policyholder, but all such provisions shall be in such form as the insurance commissioners may approve. (1) An optional standard provision relative to cancellation of the policy at the instance of the insurer as follows: 16. The insurer may cancel this policy at any time by written notice delivered to the insured or mailed to his last address as shown by the records of the insurer together with cash or the insurer's check for the unearned portion of the premiums actually paid by the insured, and such cancellation shall be without prejudice to any claim originating prior thereto. (2) An optional standard provision relative to reduction of the amount of indemnity to a sum less than that stated in the policy as follows: 17. If the insured shall carry with another company, corporation, association or society other insurance covering the same loss without giving written notice to the insurer, then in that case the insurer shall be liable only for such portion of the indemnity promised as the said indemnity bears to the total amount of like indemnity in all policies covering such loss, and for the return of such part of the premium paid as shall exceed the pro rata for the indemnity thus determined. (3) An optional standard provision relative to deduction of premium upon settlement of claim as follows: 18. Upon the payment of claim hereunder any premium then due and unpaid or covered by any note or written order may be deducted therefrom. (4) An optional standard provision relative to other insurance by the same insurer which shall be in such one of the following forms as may be appropriate to the indemnities provided, and in the blank spaces of which the insurer shall insert such upward limits of indemnity as are specified by the insurer's classification of risks, filed as required by this act. (B) :—19. If a like policy or policies, previously issued by the insurer to the insured be in force concurrently herewith, making the aggregate indemnity for loss of time on account of disability in

excess of \$. . . . . weekly, the excess insurance shall be void and all premiums paid for such excess shall be returned to the insured. (C) :—19. SECT. 7. The acknowledgement by any insurer of the receipt of notice given under any policy covered by this act, or the furnishing of forms for filing proofs of loss, or the acceptance of such proofs, or the investigation of any claim thereunder shall not operate as a waiver of any of the rights of the insurer in defense of any claim arising under such policy.

In case any officer other than mayor or alderman shall be required to be chosen by popular vote at a municipi-

The matter shall then be laid before the board of aldermen at its next regular meeting or at a special meeting called for that purpose and the action of said board confirming, annulling or reversing the vote or decision of the board of public works shall, subject to the negative given the mayor by the next following section, be final and conclusive.

And secondarily on the following question, namely: If the present charter of the city is repealed, shall the new charter of the city be Plan 1 or Plan 2? If on a majority of the ballots cast at said meeting, the voters shall be for a repeal of the present charter of the city of Nashua, the plan receiving the larger number of votes on the secondary question shall be adopted as the charter of the city, but should there be a tie vote on the secondary question the present charter shall remain in force. Plan 1 shall include all the provisions of Part 1 of this act, and if said Plan is adopted, Part 2 of this act shall be inoperative. Plan 2 shall include all the provisions of Part 2 of this act, and if Plan 2 is adopted, Part 1 of this act shall be inoperative. If on any ballot, the voter shall vote for both Plan 1 and Plan 2, so much of said ballot as refers to the second question shall not be counted.

SECT. 7. It shall be the duty of the city clerk at the expense of the city to cause to be prepared, printed and authenticated, as provided by the constitution and laws of the state and as required in Part 3 of this act, a sufficient number of suitable ballots to take the sense of the voters upon the questions to be submitted to them, as specified in Part 3 of this act, which ballots shall be furnished by him to the proper ward officers of each ward as required in the case of general elections. Said election shall be conducted by the regular election officers in each ward, and all laws applicable to regular biennial elections with reference to the correcting, revising, use and preservation of checklists, the preparation of voting places, the manner of conducting the election, the counting, record and return of votes, the sealing and preservation of ballots and tally-sheets, and the duties of election officers, shall apply to and govern said election, except as herein expressly modified. The city clerk shall seasonably furnish to the several ward clerks suitable blanks for making such returns. The city councils and the mayor shall meet at 2 o'clock in the afternoon of Thursday, June 12, 1913, at the council chambers. The city clerk shall at that time open and lay before them the returns of the votes in the several wards, and they shall canvass the returns and declare the results, which shall be duly recorded by the city clerk. Ten or more legal voters of the city may within one week after such canvass file with the city clerk a petition in writing requesting a recount of the votes cast at said election. In such case the city clerk shall within three days thereafter in the council chamber open the packages containing the ballots used at said election in the presence of the mayor and the city councils and such others as may choose to attend. The mayor and city councils shall thereupon recount the ballots and declare the results which shall be duly recorded by the city clerk and shall be conclusive as to the result of the said election.
